Under para 2 of Section 236 of the Mysore Land Revenue Code (Regulation IV of 1888) the Government of Mysore are pleased to authorize the extension of the provisions of Chapters VIII and IX of the said Code to the Sarvamanya Gollahalli village in the Dodderi hobli, Maddagiri Taluk.

No. 5364—*Fl.* 294, *dated 10th December* 1895.

The Government are pleased to direct the following additions and alterations being made in the Mysore Service Regulations :—

I. For Article 518, substitute—

"Article 518 A.—A Member of Council, having to travel by railway over a distance of not less than 20 miles in a single journey and sending the conveyance required for his use at the end of such journey, shall be entitled, in addition to his ordinary allowance, under Article 525 A, to the actual expenses of sending such conveyance, which shall include a carriage and two pairs of horses.

"518 B.—Subject to the general or special sanction of his official superior, an officer, having to travel by railway over a distance of not less than 20 miles in a single journey and sending the conveyance required for his use at the end of such journey, shall be entitled, in addition to his ordinary allowance, under Article 522, to the actual expenses of sending such conveyance.

'Conveyance' in this Sub-Article means—

(1) In the case of District Judges, Deputy Commissioners and Executive Engineers, or officers superior to them in the Revenue, Judicial and Public Works Departments, or any other specified officers, a carriage and two horses.

(2) In the case of others, a riding horse.

Note 1.—An officer on receipt of a permanent monthly travelling allowance is not entitled to the privilege of this Sub-Article.

Note 2.—The sanction of the official superior under this Sub-Article shall be given only in the interests of the public service, and when given, should be at once communicated to the Government in the General Department, with the reasons therefor."

II. For Article 525 A, substitute—

"525 A.—A Member of Council travelling on duty by railway is entitled for such railway journeys to—

(1) a compartment of a first class carriage for himself;

(2) four third class fares for personal servants; and

(3) freight for personal luggage not exceeding ten maunds."

III. In Appendix No. 2 referred to in Article 528, add—"Members of Council—batta Rs. 10, mileage per mile annas 8."

IV. To Article 552, add—"Note—This Article is not applicable to a Member of Council."

No. 5508—*Ex.* 182, *dated* 11*th December* 1895.

The Government of Mysore are pleased to direct that the following be substituted for sub-clauses (2) and (3) of clause 5 of Rule XXI of the Rules published under Notification No. 495 of 30th March 1892:—

(2) The amount for which the privilege has been purchased shall be payable into the local Taluk Treasury on the prescribed printed Chellans, in equal monthly instalments, commencing from the 1st month of the contract. Each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing, that the license is forfeited, and proceed to re-sell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of re-selling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it, and to give each separate shop-keeper a license for the rent he agrees to pay, provided the total of such rents is not less than what the defaulting farmer had agreed to pay. The Chellans shall be in triplicate in the appended Form E. The original shall accompany the Treasury "Daily Cash" account sent to the District Treasury, the duplicate forwarded by the Taluk Treasury Officer to the Excise Commissioner's office, and the triplicate retained with the renter. Payments on account of the shops in the Civil and Military Station shall be made into the Resident's Treasury on the printed Chellans furnished to the shop-keepers by the Collector of the Civil and Military Station.

(3) The deposit made by the licensee shall be taken in payment of the instalments due in the last two months of the period of the farm. Provided, however, that where the farm is re-sold or broken up under the provisions of sub-clause (2) above, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter, as well as towards the deficits, if any, arising from the re-sale of the farm. The balance of such arrears and deficits, if any, shall be recoverable with interest at 6 per cent per annum from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

2. The conditions of the Agreement, License, &c., will also be modified accordingly.

No. 5512—*Ex.* 183, *dated* 11*th December* 1895.

The Government of Mysore are pleased to direct that the following be substituted for sub-clauses (2) and (3) of clause 6 of Rule V of the Rules sanctioned in Proceedings No. 11739-40—R. F. 233-92, dated 14th January 1893, and published under Notification No. 11813—R. F. 233-92:—

(2) The amount for which the exclusive privilege has been purchased shall be payable by the licensee into the local Taluk Treasury on the prescribed printed Chellans, furnished by the Government for the purpose, in equal monthly instalments commencing from the first month of the lease together with the local cess of one anna on every rupee of such instalment. Each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent, together with local cess thereon, shall be

payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing, that the license is forfeited, and proceed to re-sell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of re-selling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it, and give to each separate shop-keeper a license for the rent he agrees to pay, provided the total of such rents is not less than what the defaulting farmer had agreed to pay. The Chellans shall be in triplicate in the appended Form C. The original shall accompany the Treasury "Daily Cash" account sent to the District Treasury, the duplicate forwarded by the Taluk Treasury Officer to the Deputy Commissioner's office, and the triplicate retained with the licensee.

(3) The deposit made by the licensee shall be taken in payment of the instalment due in the last month or months of the period of the farm. Provided, however, that when the farm is re-sold or broken up under the provisions of sub-clause (2) above, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale of the farm. The balance of such arrears and deficits, if any, shall be recoverable with interest at 6 per cent per annum from the licensee or his surety or sureties, or from both, under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

2. The conditions of the Agreement, License, &c., will also be modified accordingly, and as regards the security to be taken, the terms laid down in Rule V, Clause 2 of Notification No. 11813—R. No. 6084—*Ft. F.* 105-95, *dated* 8*th January* 1896.

The following Revised Rules, framed under Sections 23, 24, 25 and 26 of the Forest Rules of 1878, defining more fully the privileges of raiyats to take wood and other articles of forest produce from District or Government Unreserved Forests, have been, pending the revision of Forest Rules, sanctioned by the Government of Mysore, for the District of *Shimoga*, *Kadur* and *Hassan*, and are published for general information. These Rules do not apply to Coffee Planters :—

1. The privileges granted in the rules to raiyats will be exercised by them within the limits of Village Forests wherever specifically assigned, and when Village Forests have not been so assigned, within the limits of District Forests or portions thereof which may be set apart for the purpose.

2. No trees bearing forest produce, such as cinnamon, or yelaga, tamarind, alalekayi, kachu, geru, gamboji, antavala, manda or maddidhupa and halmaddi, &c., shall be felled under these Rules, either in the Village or District Forests.

In the Village and District Forests, sandalwood, teak, bité or blackwood, ebony, poon, karachi and jalari, will be entirely at the disposal of the Forest Department. Raiyats as well as traders will have to pay for this description of wood on the terms and at the rates prescribed by the Forest Department.

3. "Classified trees of the 1st Class" shall mean halasu, hebbalasu, matti, honne, nandi and ippe.

"Classified trees of the 2nd Class" shall mean hunal, jambi, masi, hettiga or arsintyaga, bilavara, todasalu, kendal, bagi, hadaga, nanja or bakula, sampige, vaté, balgi, hauladi or haralbandigo and sagadi.

"Jungle wood" shall mean wood other than that of the reserved and classified kinds.

"Agricultural implements" shall mean and include ploughs, harrows, clod-crushers, hoes, seed-drills, mamti-handles, gudli-handles and all other agricultural implements. The term shall not include sugar-cane mills, paddy-husking mills and troughs for cattle, except in the Malnad.

"Malnad" shall mean the Taluks and parts of Taluks mentioned in Appendix A ; all other parts will be deemed to be Maidan.

"Raiyat" shall mean a pattadar, khatedar, or registered occupant of Government land or minor Inamdar, and includes the co-holder or tenant of all the above descriptions of land-holders. Such tenants will be entitled to get wood or bamboos in conjunction with this pattadar, minor Inamdar or co-holder within the limit prescribed in para 10 of the Rules.

4. These Rules shall not affect any existing privilege of grazing in District Forests subject to such arrangements as may be introduced hereafter, nor will they affect existing rights of owners of gardens in their Soppinabettas, or rights in the Kans in the Malnad. But nothing herein contained will prevent any District Forest being closed for Forest conservancy by the Forest Department.

5. Raiyats in the Malnad and Maidan will, subject to Rules 1 and 2, be entitled to take free in District Forests without permit—

1stly. wood, other than of the classified kinds, for agricultural implements. In the Malnad, however, classified kinds of the 2nd Class may be taken for this purpose with the written permission of the Patel. The trees to be cut should be mature, knotted and unfit for timber. In the Malnad, when wood is wanted for sugar-cane mills, paddy-husking mills and troughs for cattle, free permits shall be obtained from the Amildar, and these shall be returned to the Taluk within the time specified with the endorsement of the Patel of the village in which the wood has been cut as to the quantity removed under the permit ;

2ndly. stakes, brushwood and bamboo thorns for fences and hedges and dams ;

3rdly. wood, other than of the classified kinds, and bamboos required for cattle pens, for sheds, pandals, small huts and "Machans" to be put up in fields and for stack floors ;

4thly. branches of jungle wood trees, for manure and litter ; and

5thly. grasses for thatching.

In addition to the above, the raiyats may also cut and remove grass gratis, from the Reserved and District Forests with the permission of the Deputy Commissioner of the District in which such

6. Raiyats requiring wood for purposes specified in Rule 5, 1st and 3rd clauses, if they wish to cut wood within the limits of any village other than their own or beyond the limits assigned to them, must obtain the permission of the Patel of that village. The size of the wood cut for agricultural implements shall not exceed what may be absolutely necessary for making the implements. Wood taken free under 3rd clause of Rule 5 should not, either in the Malnad or Maidan, exceed 2 feet in circumference except for sugar-cane mills, paddy-husking mills and troughs for cattle in the Malnad.

6. (*a*) The raiyats of the marginally noted Maganis of the Sagar and Nagar Taluks shall, for the present, take junglewood free without permit, but shall report the quantity removed by them to the Patel of the village, who shall report the same to the Amildar of the Taluk.

9. Within 50 yards of the banks of a hill stream or any of its feeders, or within a radius of 50 yards from any spring, or within 50 yards of any road, no tree, shrub, or bamboos or jungle in any District Forest shall be cut, nor shall any wood or grass therein be burnt.

10. The concession of wood, on favorable seigniorage made under Rule 8, shall not exceed, to any raiyat, 50 cart-loads in any one period of ten years in the Maidan and five years in the Malnad. It is not intended that 50 cart-loads should be issued in each case. It is the maximum allowed. The Amildar should ascertain the necessity of the raiyat in each case, and grant the quantity he may consider absolutely necessary. He should also see that the privilege is not abused. He may refuse to grant license where an application for wood or bamboos is made with a view to make profit out of it.

11. The concessions accorded to raiyats in Rules 7, 8 and 10 are intended solely for their own *bonâ fide* use. They shall not transfer, sell, or barter for purposes of trade, any materials obtained under the aforesaid rules.

12. Any raiyat wishing to obtain wood or bamboos under Rule 8 should apply to the Amildar of the Taluk in whose limits the forest, from which he is entitled to cut the same under that rule, is situate.

13. Upon payment of seigniorage prescribed in Rule 8, the Amildar will issue a license in form set forth in Appendix B. Such license is not transferrable. It will be the duty of license-holder to abide by the terms of the license. All time-expired licenses shall be null and void. No refund shall be made for unutilized licenses, nor shall fresh licenses be issued in lieu thereof.

14. The licensee shall be bound to produce for examination to the Patel of the village, within the limits of which District Forest specified in the license is situated, the wood or bamboos or other materials he is removing under the authority of that license, and to obtain the Patel's endorsement thereon as to the correctness of the quantity specified therein. The wood, bamboos, or other materials may then be removed, accompanied by the license which shall be finally handed over to the Patel of the village into which the wood, bamboos, or other materials are taken, who shall examine the quantity with the license and return the same with his certificate thereon to the Amildar of the Taluk, who will, if he has not himself issued the license, transmit it to the issuing Amildar. Only the trees that are likely to produce the quantity granted in the license shall be cut. Irregular or wasteful cutting will lead to the concessions being withdrawn totally, or for a time, from the raiyat concerned.

15. Free permits prescribed for Malnad raiyats in Rule 5 and paid licenses referred to in Rule 13 will be liable to inspection by Forest, Revenue and Police Officers, who will be bound to see that the terms of the license are not exceeded or broken.

15*A*. When any jungle or part thereof is found to have been over-worked it shall be competent for the Deputy Commissioner to close such jungle or part thereof for such period as may be necessary, and have the same notified in the Gazette.

16. No license will be issued for felling wood or bamboos in Malnad "Kans" or in any Government jungle which the Forest or Revenue Department has closed under para 4 or 15A. The fact of any jungle being closed should, without delay, be intimated to the Amildar concerned.

17. Any raiyat who fells or removes wood, bamboos, or other materials specified in para 8, or from a District Forest, without having obtained the necessary license, exceeds the quantity specified in the same, fails to return the license within the prescribed time, or breaks the terms of the license, or contravenes the provisions of these Rules, shall be punishable under Section 40 of the Forest Rules of 1878.

18. In consideration of the concessions above granted, such raiyats as are living within the vicinity of State Forests and Plantations are expected to aid the Forest Department in the prevention, spread or extinction of any fire that occurs in State Forests and Plantations. Any neglect in this respect will lead to the withdrawal of the whole or any part of the concessions for such length of time as the Inspector General of Forests may direct.

19. The raiyats are strictly forbidden from setting fire to grass, leaves, thorns or bamboo clumps in a District Forest, thereby endangering the safety of a State Forest or Plantation.

20. The undermentioned Notifications are hereby cancelled :—

Notification No. 5, dated 23rd April 1873. Notification No. 244, dated 11th February 1887, as also No. 153, dated 31st August 1874, which it cancels. So far as they apply to the Districts of Shimoga, Kadur and Hassan.

The term "cart-load" referred to in Rule 8 shall mean a country cart drawn by two bullocks. The rate for a cart-load drawn by four bullocks to be double that for a cart drawn by two bullocks, and so on for every additional pair of bullocks employed in dragging the cart.

NOTIFICATIONS BY THE GOVERNMENT OF MYSORE.

REVENUE.

No. 5918—*Fl.* 349, *dated 6th January* 1896.

The Government of Mysore are pleased to direct that the following be substituted for Rule 21 of the Mysore State Life Insurance Rules published under Notification No. 305, dated 27th October 1891—

"21. The Secretary shall forward the Policy to the Officer in charge of the District Treasury within whose limits the Proposer may be employed for delivery to him, on payment in cash of the first premium. The date of payment of the first premium shall be the date of the Policy, and shall be entered therein by the Treasury Officer before delivery. If a Policy is not claimed from the District Treasury, or from a Taluk Treasury, to which it may have been sent for delivery, within a month from the date of its receipt thereat, the matter shall be reported to the Secretary who will call upon the Insured to furnish an ordinary medical certificate of good health if more than six months have not elapsed since the original medical certificate was granted."

No. 6084—*Ft. F.* 105-95, *dated 8th January* 1896.

The following Revised Rules, framed under Sections 23, 24, 25 and 26 of the Forest Rules of 1878, defining more fully the privileges of raiyats to take wood and other articles of forest produce from District or Government Unreserved Forests, have been, pending the revision of Forest Rules, sanctioned by the Government of Mysore, for the District of *Shimoga*, *Kadur* and *Hassan*, and are published for general information. These Rules do not apply to Coffee Planters :—

1. The privileges granted in the rules to raiyats will be exercised by them within the limits of Village Forests wherever specifically assigned, and when Village Forests have not been so assigned, within the limits of District Forests or portions thereof which may be set apart for the purpose.

2. No trees bearing forest produce, such as cinnamon, or yellaga, tamarind, alalekayi, kachu, geru, gamboji, antavala, manda or maddidhupa and halmaddi, &c., shall be felled under these Rules, either in the Village or District Forests.

In the Village and District Forests, sandalwood, teak, bité or blackwood, ebony, poon, karachi, and jalari, will be entirely at the disposal of the Forest Department. Raiyats as well as traders will have to pay for this description of wood on the terms and at the rates prescribed by the Forest Department.

3. "Classified trees of the 1st Class" shall mean halasu, hebbalasu, mathi, honné, nandi and ippé.

"Classified trees of the 2nd Class" shall mean hunal, jambi, masi, hettiga or arsintyaga, bilvara, tadasalu, kendal, bagi, hadaga, nanja or bakula, sampige, vaté, balgi, haladi or haralbandige and sagadi.

"Jungle wood" shall mean wood other than that of the reserved and classified kinds.

"Agricultural implements" shall mean and include ploughs, harrows, clod-crushers, hœs, seed-drills, mamti-handles, gudli-handles and all other agricultural implements. The term shall not include sugar-cane mills, paddy-husking mills and troughs for cattle, except in the Malnad.

"Malnad" shall mean the Taluks and parts of Taluks mentioned in Appendix A; all other parts will be deemed to be Maidan.

"Raiyat" shall mean a pattadar, khatedar, or registered occupant of Government land or minor Inamdar, and includes the co-holder or tenant of all the above descriptions of land-holders. Such tenants will be entitled to get wood or bamboos in conjunction with this pattadar, minor Inamdar or co-holder within the limit prescribed in para 10 of the Rules.

4. These Rules shall not affect any existing privilege of grazing in District Forests subject to such arrangements as may be introduced hereafter, nor will they affect existing rights of owners of gardens in their Soppinabettas, or rights in the Kans in the Malnad. But nothing herein contained will prevent any District Forest being closed for Forest conservancy by the Forest Department.

5. Raiyats in the Malnad and Maidan will, subject to Rules 1 and 2, be entitled to take free in District Forests without permit—

1stly, wood, other than of the classified kinds, for agricultural implements. In the Malnad, however, classified kinds of the 2nd Class may be taken for this purpose with the written permission of the Patel. The trees to be cut should be mature, knotted and unfit for timber. In the Malnad, when wood is wanted for sugar-cane mills, paddy-husking mills and troughs for cattle, free permits shall be obtained from the Amildar, and these shall be returned to the Taluk within the time specified with the endorsement of the Patel of the village in which the wood has been cut as to the quantity removed under the permit;

2ndly, stakes, brushwood and bamboo thorns for fences and hedges and dams;

3rdly, wood, other than of the classified kinds, and bamboos required for cattle pens, for sheds, pandals, small huts and "Machans" to be put up in fields and for stack floors;

4thly, branches of jungle wood trees, for manure and litter; and

5thly, grasses for thatching.

In addition to the above, the raiyats may also cut and remove grass gratis, from the Reserved and District Forests with the permission of the Deputy Commissioner of the District in which such forests are situated.

6. Raiyats requiring wood for purposes specified in Rule 5, 1st and 3rd clauses, if they wish to cut wood within the limits of any village other than their own or beyond the limits assigned to them, must obtain the permission of the Patel of that village. The size of the wood cut for agricultural implements shall not exceed what may be absolutely necessary for making the implements. Wood taken free under 3rd clause of Rule 5 should not, either in the Malnad or Maidan, exceed 2 feet in circumference except for sugar-cane mills, paddy-husking mills and troughs for cattle in the Malnad.

Kiribidarus per 100 .. .. Re. 1

9. Within 50 yards of the banks of a hill stream or any of its feeders, or within a radius of 50 yards from any spring, or within 50 yards of any road, no tree, shrub, or bamboos or jungle in any District Forest shall be cut, nor shall any wood or grass therein be burnt.

10. The concession of wood, on favorable seigniorage made under Rule 8, shall not exceed, to any raiyat, 50 cart-loads in any one period of ten years in the Maidan and five years in the Malnad. It is not intended that 50 cart-loads should be issued in each case. It is the maximum allowed. The Amildar should ascertain the necessity of the raiyat in each case, and grant the quantity he may consider absolutely necessary. He should also see that the privilege is not abused. He may refuse to grant license where an application for wood or bamboos is made with a view to make profit out of it.

11. The concessions accorded to raiyats in Rules 7, 8 and 10 are intended solely for their own *bonâ fide* use. They shall not transfer, sell, or barter for purposes of trade, any materials obtained under the aforesaid rules.

12. Any raiyat wishing to obtain wood or bamboos under Rule 8 should apply to the Amildar of the Taluk in whose limits the forest, from which he is entitled to cut the same under that rule, is situate.

13. Upon payment of seigniorage prescribed in Rule 8, the Amildar will issue a license in form set forth in Appendix B. Such license is not transferrable. It will be the duty of license-holder to abide by the terms of the license. All time-expired licenses shall be null and void. No refund shall be made for unutilized licenses, nor shall fresh licenses be issued in lieu thereof.

14. The licensee shall be bound to produce for examination before the Patel of the village, within the limits of which the District Forest specified in the license is situated, the wood or bamboos or other materials he is removing under the authority of that license, and to obtain the Patel's endorsement thereon as to the correctness of the quantity specified therein. The wood, bamboos, or other materials may then be removed, accompanied by the license which shall be finally handed over to the Patel of the village into which the wood, bamboos, or other materials are taken, who shall examine the quantity with the license and return the same with his certificate thereon to the Amildar of the Taluk, who will, if he has not himself issued the license, transmit it to the issuing Amildar. Only the trees that are likely to produce the quantity granted in the license shall be cut. Irregular or wasteful cutting will lead to the concessions being withdrawn totally, or for a time, from the raiyat concerned.

15. Free permits prescribed for Malnad raiyats in Rule 5 and paid licenses referred to in Rule 13 will be liable to inspection by Forest, Revenue and Police Officers, who will be bound to see that the terms of the license are not exceeded or broken.

15*A*. When any jungle or part thereof is found to have been over-worked it shall be competent for the Deputy Commissioner to close such jungle or part thereof for such period as may be necessary, and have the same notified in the Gazette.

16. No license will be issued for felling wood or bamboos in Malnad "Kans" or in any Government jungle which the Forest or Revenue Department has closed under para 4 or 15*A*. The fact of any jungle being closed should, without delay, be intimated to the Amildar concerned.

17. Any raiyat who fells or removes wood, bamboos, or other materials specified in para 8, or from a District Forest, without having obtained the necessary license, exceeds the quantity specified in the same, fails to return the license within the prescribed time, or breaks the terms of the license, or contravenes the provisions of these Rules, shall be punishable under Section 40 of the Forest Rules of 1878.

18. In consideration of the concessions above granted, such raiyats as are living within the vicinity of State Forests and Plantations are expected to aid the Forest Department in the prevention,

spread or extinction of any fire that occurs in State Forests and Plantations. Any neglect in this respect will lead to the withdrawal of the whole or any part of the concessions for such length of time as the Conservator of Forests may direct.

19. The raiyats are strictly forbidden from setting fire to grass, leaves, thorns or bamboo clumps in a District Forest, thereby endangering the safety of a State Forest or Plantation.

20. The undermentioned Notifications are hereby cancelled :—

No. 5918—*Fl.* 349, *dated* 6*th January* 1896.

"21. The Secretary shall forward the Policy to the Officer in charge of the District Treasury within whose limits the Proposer may be employed for delivery to him, on payment in cash of the first premium. The date of payment of the first premium shall be the date of the Policy, and shall be entered therein by the Treasury Officer before delivery. If a Policy is not claimed from the District Treasury, or from a Taluk Treasury, to which it may have been sent for delivery, within a month from the date of its receipt thereat, the matter shall be reported to the Secretary who will call upon the Insured to furnish an ordinary medical certificate of good health if more than six months have not elapsed since the original medical certificate was granted."

No. 6084—*Ft. F.* 105-95, *dated* 8*th January* 1896.

The following Revised Rules, framed under Sections 23, 24, 25 and 26 of the Forest Rules of S, defining more fully the privileges of raiyats to take wood and other articles of forest produce District or Government Unreserved Forests, have been, pending the revision of Forest Rules, sanc-

tioned by the Government of Mysore, for the District of *Shimoga*, *Kadur* and *Hassan*, and are published for general information. These Rules do not apply to Coffee Planters :—

1. The privileges granted in the rules to raiyats will be exercised by them within the limits of Village Forests wherever specifically assigned, and when Village Forests have not been so assigned, within the limits of District Forests or portions thereof which may be set apart for the purpose.

2. No trees bearing forest produce, such as cinnamon, or yellaga, tamarind, alalekayi, kachu, geru, gamboji, antavala, manda or maddidhupa and halmaddi, &c., shall be felled under these Rules, either in the Village or District Forests.

In the Village and District Forests, sandalwood, teak, bité or blackwood, ebony, poon, karachi, and jalari, will be entirely at the disposal of the Forest Department. Raiyats as well as traders will have to pay for this description of wood on the terms and at the rates prescribed by the Forest Department.

3. "Classified trees of the 1st Class" shall mean halasu, hebbalasu, mathi, honné, nandi and ippé.

"Classified trees of the 2nd Class" shall mean hunal, jambi, masi, hettiga or arsintyaga, bilvara, tadasalu, kendal, bagi, hadaga, nanja or bakula, sampige, vaté, balgi, haladi or haralbandige and sagadi.

"Jungle wood" shall mean wood other than that of the reserved and classified kinds.

"Agricultural implements" shall mean and include ploughs, harrows, clod-crushers, hoes, seed-drills, mamti-handles, gudli-handles and all other agricultural implements. The term shall not include sugar-cane mills, paddy-husking mills and troughs for cattle, except in the Malnad.

"Malnad" shall mean the Taluks and parts of Taluks mentioned in Appendix A ; all other parts will be deemed to be Maidan.

"Raiyat" shall mean a pattadar, khatedar, or registered occupant of Government land or minor Inamdar, and includes the co-holder or tenant of all the above descriptions of land-holders. Such tenants will be entitled to get wood or bamboos in conjunction with this pattadar, minor Inamdar or co-holder within the limit prescribed in para 10 of the Rules.

4. These Rules shall not affect any existing privilege of grazing in District Forests subject to such arrangements as may be introduced hereafter, nor will they affect existing rights of owners of gardens in their Soppinabettas, or rights in the Kans in the Malnad. But nothing herein contained will prevent any District Forest being closed for Forest conservancy by the Forest Department.

5. Raiyats in the Malnad and Maidan will, subject to Rules 1 and 2, be entitled to take free in District Forests without permit—

1stly, wood, other than of the classified kinds, for agricultural implements. In the Malnad, however, classified kinds of the 2nd Class may be taken for this purpose with the written permission of the Patel. The trees to be cut should be mature, knotted and unfit for timber. In the Malnad, when wood is wanted for sugar-cane mills, paddy-husking mills and troughs for cattle, free permits shall be obtained from the Amildar, and these shall be returned to the Taluk within the time specified with the endorsement of the Patel of the village in which the wood has been cut as to the quantity removed under the permit ;

2ndly, stakes, brushwood and bamboo thorns for fences and hedges and dams ;

3rdly, wood, other than of the classified kinds, and bamboos required for cattle pens, for sheds, pandals, small huts and "Machans" to be put up in fields and for stack floors ;

4thly, branches of jungle wood trees, for manure and litter ; and

5thly, grasses for thatching.

In addition to the above, the raiyats may also cut and remove grass gratis, from the Reserved and District Forests with the permission of the Deputy Commissioner of the District in which such forests are situated.

6. Raiyats requiring wood for purposes specified in Rule 5, 1st and 3rd clauses, if they wish to cut wood within the limits of any village other than their own or beyond the limits assigned to them, must obtain the permission of the Patel of that village. The size of the wood cut for agricultural implements shall not exceed what may be absolutely necessary for making the implements. Wood taken free under 3rd clause of Rule 5 should not, either in the Malnad or Maidan, exceed 2 feet in circumference except for sugar-cane mills, paddy-husking mills and troughs for cattle in the Malnad.

6. (*a*) The raiyats of the marginally noted Maganis of the Sagar and Nagar Taluks shall, for the present, take junglewood free without permit, but shall report the quantity removed by them to the Patel of the village, who shall report the same to the Amildar of the Taluk.

Kiribidarus per 100 .. .. Re. 1

9. Within 50 yards of the banks of a hill stream or any of its feeders, or within a radius of 50 yards from any spring, or within 50 yards of any road, no tree, shrub, or bamboos or jungle in any District Forest shall be cut, nor shall any wood or grass therein be burnt.

10. The concession of wood, on favorable seigniorage made under Rule 8, shall not exceed, to any raiyat, 50 cart-loads in any one period of ten years in the Maidan and five years in the Malnad. It is not intended that 50 cart-loads should be issued in each case. It is the maximum allowed. The Amildar should ascertain the necessity of the raiyat in each case, and grant the quantity he may consider absolutely necessary. He should also see that the privilege is not abused. He may refuse to grant license where an application for wood or bamboos is made with a view to make profit out of it.

11. The concessions accorded to raiyats in Rules 7, 8 and 10 are intended solely for their own *bonâ fide* use. They shall not transfer, sell, or barter for purposes of trade, any materials obtained under the aforesaid rules.

12. Any raiyat wishing to obtain wood or bamboos under Rule 8 should apply to the Amildar of the Taluk in whose limits the forest, from which he is entitled to cut the same under that rule, is situate.

13. Upon payment of seigniorage prescribed in Rule 8, the Amildar will issue a license in form set forth in Appendix B. Such license is not transferrable. It will be the duty of license-holder to abide by the terms of the license. All time-expired licenses shall be null and void. No refund shall be made for unutilized licenses, nor shall fresh licenses be issued in lieu thereof.

14. The licensee shall be bound to produce for examination before the Patel of the village, within the limits of which the District Forest specified in the license is situated, the wood or bamboos or other materials he is removing under the authority of that license, and to obtain the Patel's endorsement thereon as to the correctness of the quantity specified therein. The wood, bamboos, or other materials may then be removed, accompanied by the license which shall be finally handed over to the Patel of the village into which the wood, bamboos, or other materials are taken, who shall examine the quantity with the license and return the same with his certificate thereon to the Amildar of the Taluk, who will, if he has not himself issued the license, transmit it to the issuing Amildar. Only the trees that are likely to produce the quantity granted in the license shall be cut. Irregular or wasteful cutting will lead to the concessions being withdrawn totally, or for a time, from the raiyat concerned.

15. Free permits prescribed for Malnad raiyats in Rule 5 and paid licenses referred to in Rule 13 will be liable to inspection by Forest, Revenue and Police Officers, who will be bound to see that the terms of the license are not exceeded or broken.

17. Any raiyat who fells or removes wood, bamboos, or other materials specified in para 8, or from a District Forest, without having obtained the necessary license, exceeds the quantity specified in the same, fails to return the license within the prescribed time, or breaks the terms of the license, or contravenes the provisions of these Rules, shall be punishable under Section 40 of the Forest Rules of 1878.

18. In consideration of the concessions above granted, such raiyats as are living within the vicinity of State Forests and Plantations are expected to aid the Forest Department in the prevention,

spread or extinction of any fire that occurs in State Forests and Plantations. Any neglect in this respect will lead to the withdrawal of the whole or any part of the concessions for such length of time as the Conservator of Forests may direct.

No. 10444—*Mis.* 146C, *dated* 11*th March* 1896.

The following Resolution of the Government of India in the Home Department, dated 19th October 1876, No. 1649, prescribing Rules in regard to the preservation of Memorials by Officers in Civil employ is re-published, and the attention of all Officers in Mysore is drawn to it.

Extract from the Proceedings of the Government of India in the Home Department, (Public), No. 1649,—under date, Simla, the 19th October 1876.

RESOLUTION.—Certain Memorials have recently been presented to the Governor General in Council or to the Secretary of State by various bodies of Officers in Civil employ, complaining of grievances or

desiring boons which affect generally the classes of Officers from which these Memorials emanated. In some instances the Memorials were signed by individuals who could not possibly have been personally affected in the matter which forms the subject of the Memorial. Such circumstances give to the proceedings resulting such Memorials an appearance of organized combination, which it is impossible, consistently with the maintenance of official discipline and subordination, to allow.

2. His Excellency in Council is accordingly pleased to forbid any combination for the purpose of memorializing any authority to which the Memorialists may be subordinate, and to extend to all officers in Civil employ in whatsoever Department the following rules in regard to the presentation of Memorials :—

I.—Every Officer wishing to address a Memorial to Government shall do so separately, and not in concert with others.

II.—No Officer in the employment of Government may submit any Memorial in respect to any matter connected with the official position which he occupies in which he is not personally interested, except as the agent of some person or persons unable to act in their own behalf.

III.—No officer in the employment of Government shall submit a printed Memorial.

IV.—No Memorial shall be submitted in a form set for general adoption, but shall be couched in the Memorialist's own words and in temperate and respectful language.

V.—Any Memorial contravening these rules will not be taken into consideration by the authority to which it is submitted, and the Officer or Officers submitting such Memorials will incur the serious displeasure of Government.

Order.—Ordered that this Resolution be circulated to all Local Governments and Administrations, to the several Departments of the Government of India, and to the High Court (by separate letter), the Sanitary Commissioner with the Government of India, the Superintendent of Port Blair and the Nicobars, and the Director General of the Archæological Survey of India for information and guidance.

No. 10444—*Mis.* 1466, *dated* 11*th March* 1896.

The following Resolution of the Government of India in the Home Department, dated 19th October 1876, No. 1649, prescribing Rules in regard to the preservation of Memorials by Officers in Civil employ is re-published, and the attention of all Officers in Mysore is drawn to it.

Extract from the Proceedings of the Government of India in the Home Department, (Public), No. 1649,—under date, Simla, the 19th October 1876.

RESOLUTION.—Certain Memorials have recently been presented to the Governor General in Council or to the Secretary of State by various bodies of Officers in Civil employ, complaining of grievances or desiring boons which affect generally the classes of Officers from which these Memorials emanated. In some instances the Memorials were signed by individuals who could not possibly have been personally affected in the matter which forms the subject of the Memorial. Such circumstances give to the proceedings resulting such Memorials an appearance of organized combination, which it is impossible, consistently with the maintenance of official discipline and subordination, to allow.

2. His Excellency in Council is accordingly pleased to forbid any combination for the purpose of memorializing any authority to which the Memorialists may be subordinate, and to extend to all officers in Civil employ in whatsoever Department the following rules in regard to the presentation of Memorials :—

I.—Every Officer wishing to address a Memorial to Government shall do so separately, and not in concert with others.

II.—No Officer in the employment of Government may submit any Memorial in respect to any matter connected with the official position which he occupies in which he is not personally interested, except as the agent of some person or persons unable to act in their own behalf.

III.—No officer in the employment of Government shall submit a printed Memorial.

IV.—No Memorial shall be submitted in a form set for general adoption, but shall be couched in the Memorialist's own words and in temperate and respectful language.

V.—Any Memorial contravening these rules will not be taken into consideration by the authority to which it is submitted, and the Officer or Officers submitting such Memorials will incur the serious displeasure of Government.

ORDER.—Ordered that this Resolution be circulated to all Local Governments and Administrations, to the several Departments of the Government of India, and to the High Court (by separate letter), the Sanitary Commissioner with the Government of India, the Superintendent of Port Blair and the Nicobars, and the Director General of the Archæological Survey of India for information and guidance.

NOTIFICATIONS BY THE GOVERNMENT OF MYSORE.

GENERAL AND REVENUE.

No. 10444—*Mis.* 1466, *dated* 11*th March* 1896.

The following Resolution of the Government of India in the Home Department, dated 19th October 1876, No. 1649, prescribing Rules in regard to the preservation of Memorials by Officers in Civil employ is re-published, and the attention of all Officers in Mysore is drawn to it.

Extract from the Proceedings of the Government of India in the Home Department, (Public), No. 1649,—under date, Simla, the 19th October 1876.

RESOLUTION.—Certain Memorials have recently been presented to the Governor General in Council or to the Secretary of State by various bodies of Officers in Civil employ, complaining of grievances or desiring boons which affect generally the classes of Officers from which these Memorials emanated. In some instances the Memorials were signed by individuals who could not possibly have been personally affected in the matter which forms the subject of the Memorial. Such circumstances give to the proceedings resulting such Memorials an appearance of organized combination, which it is impossible, consistently with the maintenance of official discipline and subordination, to allow.

2. His Excellency in Council is accordingly pleased to forbid any combination for the purpose of memorializing any authority to which the Memorialists may be subordinate, and to extend to all officers in Civil employ in whatsoever Department the following rules in regard to the presentation of Memorials :—

I.—Every Officer wishing to address a Memorial to Government shall do so separately, and not in concert with others.

II.—No Officer in the employment of Government may submit any Memorial in respect to any matter connected with the official position which he occupies in which he is not personally interested, except as the agent of some person or persons unable to act in their own behalf.

III.—No officer in the employment of Government shall submit a printed Memorial.

IV.—No Memorial shall be submitted in a form set for general adoption, but shall be couched in the Memorialist's own words and in temperate and respectful language.

V.—Any Memorial contravening these rules will not be taken into consideration by the authority to which it is submitted, and the Officer or Officers submitting such Memorials will incur the serious displeasure of Government.

ORDER.—Ordered that this Resolution be circulated to all Local Governments and Administrations, to the several Departments of the Government of India, and to the High Court (by separate letter), the Sanitary Commissioner with the Government of India, the Superintendent of Port Blair and the Nicobars, and the Director General of the Archæological Survey of India for information and guidance.

SALE OF TODDY VEND FARMS FOR 1896-97.

Notification No. 8030—*Ex.* 243, *dated* 5*th March* 1896.

It is hereby notified by the Government of Mysore that the exclusive privilege of selling Date Toddy in the various classes of farms specified in the subjoined schedule* for one year beginning with 1st July 1896 and ending with 30th June 1897, will be sold by the respective Deputy Commissioners or by Assistant Commissioners specially authorized by the Deputy Commissioners for the purpose, on the dates mentioned in the said schedule and at the Taluk Kasbas, subject to the conditions hereinafter set forth. If the sales are not completed on those days, they will be continued on the next following days. Should there be no bids for any of the aforesaid farms, or should any of the present farms be unduly large, the officer conducting the sale, may revise, sub-divide or otherwise re-arrange the farms subject to the approval of the Excise Commissioner.

2. The exclusive privilege above described will be put up to auction, and will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject any bid at discretion. Such formal confirmation will be tantamount to an acceptance of the bid.

3. Parties intending to bid must attend either in person or by duly authorized agents. The successful bidder must, on the exclusive privilege being knocked down to him, and before the next farm is put up for sale, deposit a sum equal to one-twentieth of the amount of his bid, and within fifteen days of the confirmation of the sale having been notified to him by the Deputy Commissioner in writing, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to three months' rent. Provided that if the Deputy Commissioner considers it advisable, he may permit a deposit in cash or Government securities equal to only two months' rent, or such deposit equal to one-fifth's rent and personal security for three months' rent. If he fails to produce the aforesaid securities, the deposits already made will be forfeited, and the exclusive privilege will be immediately re-offered or otherwise disposed of as the Deputy Commissioner may direct.

4. Re-sales effected under para 3 will be at the risk of the defaulting bidder who will forfeit all gain, and in the event of a loss by the re-sale, will make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale ; and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

* For schedule (*vide* Supplement to Mysore Gazette, Part I, dated 26th March 1896).

5. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth, and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made will be forfeited; and the exclusive privilege will be re-sold at the risk and loss of the first purchaser as set forth in paras 3 and 4, or be otherwise disposed of. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

6. The existing shops in each farm and the groves attached to each farm, the yearly rental of each farm, &c., for the previous years are specified in the appended schedule.

7. As soon as the agreement has been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions:—

(1) For the supply of toddy to his shops, the licensee shall have the exclusive privilege of manufacturing toddy from the date trees in the groves assigned to his farm; and he shall be at liberty to manufacture toddy from date, palmyra or cocoanut trees in private lands either inside or outside the limits of his farm, on separate free licenses issued under Section 5 of the Excise Act, or to buy it from other farms, under private arrangements between him and the owners of such lands or the licensees of such farms, as the case may be, the selling price of palmyra and cocoanut toddy being fixed by the Excise Commissioner from time to time.

(2) The exclusive privilege shall extend only to the sale of date, palmyra and cocoanut toddy, and shall not include the sale of bagani toddy.

(3) The amount for which the privilege has been purchased, shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from 1st July 1896 together with the local cess of one anna on every rupee of such instalment; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent, together with local cess thereon, shall be payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing, that the license is forfeited, and proceed to re-sell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of re-selling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it, and give to each separate shop-keeper a license for the rent he agrees to pay, provided the total of such rents is not less than what the defaulting farmer had agreed to pay.

(4) The deposit made by the licensee shall be taken in payment of the instalment due in the last month or months of the period of the farm. Provided, however, that when the farm is re-sold or broken up under the provisions of sub-clause (3) above, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale of the farm. The balance of such arrears and deficits, if any, shall be recoverable with interest at 6 per cent per annum from the licensee or his surety or sureties, or from both, under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(5) The toddy shall be sold to the public at the rates prescribed by Government.

(6) The toddy shall be sold pure as drawn from trees, and shall not be adulterated or diluted in any manner in the shops, or depôts if any.

(7) The licensee shall keep true accounts of the quantity of toddy received and issued to shop-keepers. The passes issued with the toddy transported, shall be subject to examination and check by the officers authorized on this behalf.

(8) The toddy shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner. Tree-foot sales or sales in the open, or the disposal of toddy in any other manner unauthorized by the rules, shall be strictly prohibited.

(9) The Deputy Commissioner may, whenever he thinks fit, direct any shop to be closed, or permit transfers of shops from one place to another.

(10) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending arrack in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending arrack in any part of the farm, to hold any share or interest in his exclusive privilege of selling toddy; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest direct or indirect, in any toddy farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(11) The licensee shall be bound by the provisions of the Excise laws and rules in force or by any additional rules which may from time to time be prescribed under the Excise laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with permit books for the transport of toddy, which books may be purchased from local Excise officers.

(12) The farm shall not be transferable except with the permission of the Excise Commissioner.

(13) Resignations of farms in whole or part will be summarily rejected by the Deputy Commissioner.

(14) The remaining terms and conditions shall be as set forth in the prescribed licenses.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license, and re-sell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government. When a farm is cancelled, the rent for the whole period of the farm shall become due at once; and all loss caused to Government by the cancelment or re-sale of the farm shall be made good by the licensee or his surety in the manner specified for re-sales in para 4 above. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the Excise laws or other enactments or rules for the time being in force.

The Assistant Supervisor or other officer aforesaid shall issue a pass in duplicate in the prescribed form, under the rules in force for the transport of the arrack from the Distillery or Warehouse. The licensee who obtains Arrack from a Bonded Depôt shall pay both the price of arrack and duty into the local Taluk Treasury.

(6) The licensee in the Bangalore District shall maintain at a place or places within his farm where it may be considered necessary by him and the Deputy Commissioner, a Depôt or Depôts to which all arrack purchased by him shall be conveyed in the first instance for verification, &c., of the consignment under the rules in force, before issue to the shop-keepers. The Depôts shall at all times be open to inspection by the Deputy Commissioner or any officer of the Excise Department. No such Depôt shall be opened without a license from the Deputy Commissioner in the prescribed form. The licensees in the remaining seven Districts will draw their supplies from, and deposit the same for issue to their shops in, the existed Bonded Depôts, the cost of the establishments and rent whereof being paid by them as at present.

(7) The arrack shall be sold as issued from the Distillery, Bonded Depôt, or Farm Depôt and shall not be adulterated or diluted in any manner in the shops.

(9) The arrack shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner.

(10) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed or permit transfers of shops from one place to another.

(11) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending toddy in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending toddy in any part of the farm, to hold any share or interest in his exclusive privilege of selling arrack; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indireet, in any Arrack farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(12) The licensee shall be bound to take over any arrack which may remain as stock in hand belonging to the out-going farmer on the 1st July 1896 in the existing Bonded Depôt in his farm or in the Farm Depôt or in his shops, paying to the old farmer such compensation for the same as may be fixed by the Excise Commissioner.

(14) The Farm shall not be transferable except with the permission of the Excise Commissioner.

(15) Resignations of Farms in whole or part will be summarily rejected by the Deputy Commissioner.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach of such conditions or for such neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and re-sell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government; and all loss thereby caused, together with all losses accruing to Government in consequence of the licensee's neglect to carry on his business by opening his shops on 1st July 1896, should be made good by the licensee. When a farm is cancelled, the rent for the whole period of the farm shall become due at once. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the Excise laws for the time being in force.

SALE OF TODDY VEND FARMS FOR 1896-97.

Notification No. 8030—*Ex.* 243, *dated 5th March* 1896.

It is hereby notified by the Government of Mysore that the exclusive privilege of selling Date Toddy in the various classes of farms specified in the subjoined schedule* for one year beginning with 1st July 1896 and ending with 30th June 1897, will be sold by the respective Deputy Commissioners or by Assistant Commissioners specially authorized by the Deputy Commissioners for the purpose, on the dates mentioned in the said schedule and at the Taluk Kasbas, subject to the conditions hereinafter set forth. If the sales are not completed on those days, they will be continued on the next following days. Should there be no bids for any of the aforesaid farms, or should any of the present farms be unduly large, the officer conducting the sale, may revise, sub-divide or otherwise re-arrange the farms subject to the approval of the Excise Commissioner.

2. The exclusive privilege above described will be put up to auction, and will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject any bid at discretion. Such formal confirmation will be tantamount to an acceptance of the bid.

3. Parties intending to bid must attend either in person or by duly authorized agents. The successful bidder must, on the exclusive privilege being knocked down to him, and before the next farm is put up for sale, deposit a sum equal to one-twentieth of the amount of his bid, and within fifteen days of the confirmation of the sale having been notified to him by the Deputy Commissioner in writing, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to three months' rent. Provided that if the Deputy Commissioner considers it advisable, he may permit a deposit in cash or Government securities equal to only two months' rent, or such deposit equal to one month's rent and personal security for three months' rent. If he fails to produce the aforesaid securities, the deposits already made will be forfeited, and the exclusive privilege will be immediately re-sold or otherwise disposed of as the Deputy Commissioner may direct.

4. Re-sales effected under para 3 will be at the risk of the defaulting bidder who will forfeit all gain, and in the event of a loss by the re-sale, will make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale ; and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

* For schedule (*vide* Supplement to Mysore Gazette, Part I, dated 26th March 1896)

5. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth, and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made will be forfeited ; and the exclusive privilege will be re-sold at the risk and loss of the first purchaser as set forth in paras 3 and 4, or be otherwise disposed of. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

6. The existing shops in each farm and the groves attached to each farm, the yearly rental of each farm, &c., for the previous years are specified in the appended schedule.

7. As soon as the agreement has been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions :—

(1) For the supply of toddy to his shops, the licensee shall have the exclusive privilege of manufacturing toddy from the date trees in the groves assigned to his farm ; and he shall be at liberty to manufacture toddy from date, palmyra or cocoanut trees in private lands either inside or outside the limits of his farm, on separate free licenses issued under Section 5 of the Excise Act, or to buy it from other farms, under private arrangements between him and the owners of such lands or the licensees of such farms, as the case may be, the selling price of palmyra and cocoanut toddy being fixed by the Excise Commissioner from time to time.

(2) The exclusive privilege shall extend only to the sale of date, palmyra and cocoanut toddy, and shall not include the sale of bagani toddy.

(3) The amount for which the privilege has been purchased, shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from 1st July 1896 together with the local cess of one anna on every rupee of such instalment ; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent, together with local cess thereon, shall be payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing, that the license is forfeited, and proceed to re-sell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of re-selling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it, and give to each separate shop-keeper a license for the rent he agrees to pay, provided the total of such rents is not less than what the defaulting farmer had agreed to pay.

(4) The deposit made by the licensee shall be taken in payment of the instalment due in the last month or months of the period of the farm. Provided, however, that when the farm is re-sold or broken up under the provisions of sub-clause (3) above, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale of the farm. The balance of such arrears and deficits, if any, shall be recoverable with interest at 6 per cent per annum from the licensee or his surety or sureties, or from both, under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(5) The toddy shall be sold to the public at the rates prescribed by Government.

(6) The toddy shall be sold pure as drawn from trees, and shall not be adulterated or diluted in any manner in the shops, or depôts if any.

(7) The licensee shall keep true accounts of the quantity of toddy received and issued to shop-keepers. The passes issued with the toddy transported, shall be subject to examination and check by the officers authorized on this behalf.

(8) The toddy shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner Tree-foot sales or sales in the open, or the disposal of toddy in any other manner unauthorized by the rules, shall be strictly prohibited.

(9) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed, or permit transfers of shops from one place to another.

(10) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending arrack in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending arrack in any part of the farm, to hold any share or interest in his exclusive privilege of selling toddy ; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest direct or indirect, in any toddy farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(11) The licensee shall be bound by the provisions of the Excise laws and rules in force or by any additional rules which may from time to time be prescribed under the Excise laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with permit books for the transport of toddy, which books may be purchased from local Excise officers.

(12) The farm shall not be transferable except with the permission of the Excise Commissioner.

(13) Resignations of farms in whole or part will be summarily rejected by the Deputy Commissioner.

(14) The remaining terms and conditions shall be as set forth in the prescribed licenses.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license, and re-sell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government. When a farm is cancelled, the rent for the whole period of the farm shall become due at once; and all loss caused to Government by the cancelment or re-sale of the farm shall be made good by the licensee or his surety in the manner specified for re-sales in para 4 above. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the Excise laws or other enactments or rules for the time being in force.

Each month's rent shall be payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing that the license is forfeited, and proceed to re-sell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of re-selling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it, and to give each separate shop-keeper a license for the rent he agrees to pay, provided the total of such rents is not less than what the defaulting farmer had agreed to pay.

(3) The deposit made by the licensee shall be taken in payment of the instalments due in the last two months of the period of the farm. Provided, however, that where the farm is re-sold or broken up under the provisions of sub-clause (2) above, the deposit shall at the discretion of the Deputy Commissioner, be either forfeited or be appropriated

towards the arrears due by the defaulter, as well as towards the deficits, if any, arising from the re-sale of the farm. The balance of such arrears and deficits, if any, shall be recoverable with interest at 6 per cent per annum from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(4) (*a*) The licensee shall purchase Arrack for issue to his shops from Messrs. Parry and Co., who have been appointed manufacturers of Arrack and other country spirits to the State, or from any Bonded Depôt established under the sanction of Government. The rate to be charged by the said manufacturers for arrack supplied by them, shall be 10½ annas per gallon of 20° Under-proof, and proportionate rates for lower strengths in accordance with Casella's rules. The licensee shall sell arrack to the public at Rs. 5—5—0 per gallon of 20° Under-proof, and at proportionate rates for lower strengths.

(*b*) The above rate to be charged by the manufacturers is in addition to excise duty which shall be prepaid into the local Government Treasury, as per following condition (5) at Rs. 4, before the removal of arrack from the Distillery, or from any Bonded Depôt established under the sanction of Government.

(5) The licensee shall pay the above duty into the local Taluk Treasury and obtain a receipt in the prescribed form. On production of such receipt and an indent for the supply of Arrack covered by the receipt, and on payment of the prescribed price of such arrack to the manufacturers or their agent, or any person appointed by Government on this behalf, the Assistant Supervisor or other officer in charge of the Distillery, or the Bonded Depôt-keeper shall issue the quantity of arrack equal to the amount of duty shown in the Treasury Officer's receipt, which will be forwarded to the Excise Commissioner's office under the endorsement of the Assistant Supervisor or other officer or Bonded Depôt-keeper aforesaid as to the date and hour when the arrack was issued. The Assistant Supervisor or other officer aforesaid shall issue a pass in duplicate in the prescribed form, under the rules in force for the transport of the arrack from the Distillery or Warehouse. The licensee who obtains Arrack from a Bonded Depôt shall pay both the price of arrack and duty into the local Taluk Treasury.

(6) The licensee in the Bangalore District shall maintain at a place or places within his farm where it may be considered necessary by him and the Deputy Commissioner, a Depôt or Depôts to which all arrack purchased by him shall be conveyed in the first instance for verification, &c., of the consignment under the rules in force, before issue to shop-keepers. The Depôts shall at all times be open to inspection by the Deputy Commissioner or any officer of the Excise Department. No such Depôt shall be [illegible] without a license from the Deputy Commissioner in the prescribed form. The licensees in the remaining seven Districts will draw their supplies from, and deposit the same for issue to their shops in, the existed Bonded Depôts, the cost of the establishments and rent whereof being paid by them as at present.

(7) The arrack shall be sold as issued from the Distillery, Bonded Depôt, or Farm Depôt and shall not be adulterated or diluted in any manner in the shops.

(8) The licensee shall keep true accounts of the quantity and strength of the arrack purchased by him and issued to shop-keepers. The passes issued with the arrack purchased by him shall be subject to examination and check under the Rahadari rules in force or which may be issued by Government from time to time.

(9) The arrack shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner.

(10) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed or permit transfers of shops from one place to another.

(11) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending toddy in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending toddy in any part of the farm, to hold any share or interest in his exclusive privilege of selling arrack; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any Arrack farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(12) The licensee shall be bound to take over any arrack which may remain as stock in hand belonging to the out-going farmer on the 1st July 1896 in the existing Bonded Depôt in his farm or in the Farm Depôt or in his shops, paying to the old farmer such compensation for the same as may be fixed by the Excise Commissioner.

(13) The licensee shall be bound by the provisions of the Excise laws and rules in force or by any additional rules which may from time to time be prescribed under the Excise laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the prescribed forms of accounts and permits or passes for the transport of arrack, which forms shall be purchased from the local Excise Officers.

(14) The Farm shall not be transferable except with the permission of the Excise Commissioner.

(15) Resignations of Farms in whole or part will be summarily rejected by the Deputy Commissioner.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach of such conditions or for such neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and re-sell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government; and all loss thereby caused, together with all losses accruing to Government in consequence of the licensee's neglect to carry on his business by opening his shops on 1st July 1896, should be made good by the licensee. When a farm is cancelled, the rent for the whole period of the farm shall become due at once. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the Excise laws for the time being in force.

The sub-joined letter from Her Majesty the Queen-Empress of India, expressing her acknowledgments of the sympathy shown towards Herself and Her Royal Highness Princess Beatrice on the occasion of the death of His Royal Highness Prince Henry of Battenberg, is published for general information :—

Osborne, February 14th, 1896.

I have, alas! once more to thank My loyal Subjects for their warm sympathy in a fresh grievous affliction which has befallen Me and My beloved Daughter, Princess Beatrice, Princess Henry of Battenberg.

This new sorrow is overwhelming, and to Me is a double one, for I lose a dearly loved and helpful Son, whose presence was like a bright sunbeam in My Home, and My dear Daughter loses a noble devoted Husband to whom she was united by the closest affection.

To witness the blighted happiness of the Daughter who has never left Me, and has comforted and helped Me, is hard to bear. But the feeling of universal sympathy so touchingly shown by all classes of My Subjects has deeply moved My Child and Myself, and has helped and soothed us greatly. I wish from My heart to thank My People for this, as well as for the appreciation manifested of the dear and gallant Prince who laid down his life in the service of his adopted Country.

My beloved Child is an example to all, in her courage, resignation, and submission to the will of God.

2. Read Government Proceedings No. 2088-93—L. F. 60-95, dated 12th August last, requesting to consult the Members of the Municipal and Local Fund Boards in the matter of opening new Local Fund Dispensaries in places where none exist and submit a statement of places requiring Dispensaries in the order of urgency, stating the particulars of population, &c.

Resolved unanimously that the following important places may be provided with Local Fund Dispensaries in the order given.

1. Siralkoppa, Shikarpur Taluk.
2. Nyamti, Honnali Taluk.
3. Holehonnur, Shimoga Taluk.
4. Anvatti, Sorab Taluk.
5. Humacha, Nagar Taluk.
6. Karur, Sagar Taluk.

3. Read and recorded Government Proceedings No. 2075-7—L. F. 196, dated 12th August last, stating that Government are not prepared to allow house rent to Midwives serving under Municipal or District Fund Boards as recommended by the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

4. Read Government Proceedings No. 2101-12—L. F. 379-92, dated 12th August last, directing that instead of Mestris being employed in each Taluk for the execution of Local Fund works, the system suggested by the Chief Engineer of entrusting to non-official Members of the local bodies the supervision of small public works of local interest may be tried tentatively and the result reported at the end of the official year.

The non-official Members are of opinion that though the suggestion of the Chief Engineer as regards the supervision of Local Fund works of a petty nature by those Members is unobjectionable in principal, it cannot be carried out in practice, as there is only one non-official Member for each of the Taluks of Shimoga, Channagiri, Nagar and Tirthahalli, while for all the remaining four Taluks of the District there are only two Members, and as the works are not carried out in one locality or near the residence of the Local Fund Members but are scattered in different places and at long distances from the residence of the members.

5. Read and recorded the following Proceedings of Government:—

(1) Government Proceedings No. 3253-64—L. F. 59-94, dated 6th September last, passing orders in regard to the construction of Chavadis.

(2) Government Proceedings No. 5165-73—L. F. 61-95, dated 2nd November 1895, stating that Government are not prepared to sanction any grants from Local Funds General for execution of drinking water wells or other new works during the year 1895-96.

(3) Government Proceedings No. 4449-58—L. F. 210-92, dated 22nd October 1895, drawing the attention of the Deputy Commissioners to the order of 1st November 1892, which directs that District Fund Budgets should be submitted so as to reach Government office not later than 31st January, and stating that the establishment charges on

account of works to be executed by Public Works Department out of District Funds should be calculated at 17½ per cent on sums provided under "Original Works" and "Repairs."

6. Read and recorded docket No. 595, dated 17th September last, from the Executive Engineer, Shimoga Division, on the subject of opening a road between Sagar and Doddinkop *viâ* Hartal, Hebbail and Bimankone (Subject No. 173 of the Dasara Representative Assembly Proceedings of 1894) informing that the track almost runs parallel with Sagar, Anantapur, Doddinkoppa road at a short distance apart and is nearly of the same length. It is mostly on the ridge line with one large stream between Hebbail and Hartal costing over Rs. 10,000 for bridging. Having a pakka road already between Sagar and Doddinkop and the improvement of the present track is not very necessary, and that if funds are available the track may be included in the list of tracks annually maintained by the Revenue Department.

7. Read and recorded Sagar Sub-Division Officer's docket No. 104, dated 17th September last, on the same subject.

8. Read Executive Engineer's docket No. 653, dated 18th October last, forwarding for countersignature and return a Supplemental Estimate for metalling and tunnelling Sagar-Siralkoppa road amounting to Rs. 2,263.

Resolved that the estimate may be sanctioned as the Budget allotment will not be exceeded.

9. Read Executive Engineer's docket No. 681, dated 29th October 1895, forwarding a re-appropriation statement for repairing 3rd Class Travellers' Bangalos in the District.

Resolved unanimously that the re-appropriation statement may be submitted to Government for sanction with the recommendation that some of the Bangalos situated on the Provincial roads should either be raised to the 2nd Class or maintained by Government, and that neither of the alternatives be approved of. The District Fund Board should be allowed to revise the establishments of these Bangalos.

10. Read Executive Engineer's docket No. 671, dated 25th October 1895, forwarding an estimate for Rs. 184 for deepening the well in the compound of Dispensary at Honnali, and requesting to make arrangements for ⅓rd contribution from District and Municipal Funds.

The estimate was returned countersigned subject to the resolutions of the District and Municipal Boards.

The Board unanimously agreed to contribute towards the deepening of the well as proposed by the Executive Engineer.

11. Read Executive Engineer's docket No. 729, dated 13th November 1895, requesting to be informed if the contribution payable from District Funds is expected, and if not, Government may be moved to waive the contributions both from the District and Municipal Funds for constructing a Dispensary block attached to the Civil Hospital at Shimoga.

The Board observed that the proposed improvement is an addition to the existing Civil Hospital and Dispensary building and not a separate Local Fund or Municipal Dispensary, and that no contribution was therefore payable.

12. Read and recorded docket No. 735, dated 17th November 1895, from the Executive Engineer, Shimoga Division, giving cover to copy of docket No. 986—5788, dated 12th idem, from the Secretary to the Government of Mysore, P. W. Department, stating that the estimate amounting to Rs. 11,519 for metalling parts of the Chitaldrug-Benkipur road running over embankments and soft soil has been sanctioned by Government, and informing that the work being necessary, the sooner the whole is done the better as proposed by the Executive Engineer. Any excess outlay over the allotment in the District Fund Budget that may be incurred can be met from the savings in the Budget grant for the year.

13. Read and recorded the Tirthahalli Taluk Amildar's Itilla No. 260, dated 7th August last, reporting that the Anglo-Vernacular School at Tirthahalli was removed to the Musafirkhana as a temporary measure, as the school building was reported to be very shaky and dangerous.

14. Read and passed the District Fund Administration Report for the year 1894-95.

15. Read and recorded the Sagar Sub-Division Officer's docket No. 200, dated 24th November 1895, stating that he was unable to attend the Board meeting this day as he had posted criminal cases for hearing on that date.

16. Read and recorded the reports from the Amildars of Sagar and Tirthahalli Taluks stating that they are unable to attend the Local Fund Board meeting this day as they are busy with Jamabandi work of their respective Taluks.

(1) For what is expected to be actually paid (under proper sanction) during the year, including the arrears of past years. In no case net charges to be entered, but the gross transactions in full.
(2) Full amount of the sanctioned scale should be shown.
(3) The columns of number must be carefully filled in, and the rate of pay should be stated.
(4) The estimates for varying charges, such as contingencies, travelling allowance and the like, should be made by taking the average of three years' figures only as a guide, but not absolutely.
(5) No new charge to be entered that has not been sanctioned by competent authority. The number and date of order sanctioning fresh charges included in the estimates for the first time, must invariably be quoted. New or additional charges proposed which are not sanctioned by Government will be disallowed by this office.

NOTES.

1. Full explanation for the variation in the estimates with previous year's estimate should be given opposite the items concerned.

2. The Districtwar details for the Estimates of Receipts and Expenditure of the Forest, Excise, Registration, Judicial, Police, Muzrai and Medical Departments, which are reviewed and consolidated by their respective Heads of Departments or Controlling Officers, may be prepared as heretofore, separately in manuscript, and attached to the Consolidated Budget compiled in the printed form.

12. *Private Students* comprise all those students who are at present without appointments in any Forest Service, and whose object it is, by becoming possessors of Forest School certificates, to obtain employment, either in the Forest Service of the Government of India, or in that of a Native State, or some other owner of forest-property.

(i) Candidates for admission to the Forest School as private students must not be less than 18 or more than 25 years of age, and their applications must be sent to a Conservator of Forests* through a Divisional Forest Officer of rank not below that of an Assistant Conservator of the 1st Grade, or through a Collector or other District Officer. Neither the Conservator, the Divisional Forest Officer, nor the Collector need belong to the Forest Circle or Province in which the candidate seeks employment; but Divisional Forest Officers and Collectors may not forward to Conservators applications unsupported by the five certificates enumerated below, namely:—

(*a*) A certificate that the candidate is a "Native of India," within the meaning † assigned to those words by Section 6 of 33 Vict., Cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by Article 61 of the Civil Service Regulations, signed by the Civil Surgeon of the District in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough out-door life in the [illegible] Department.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliableness.

(*e*) A certificate from an Officer of the Educational Department, of a rank not less than that of a Deputy Inspector of Schools or the Head-master of a High School under public management, to the effect that the candidate's education appears sufficiently good to give hopes of his being able to pass the entrance examination.

The last three certificates must bear date not further back than the 1st August of the year preceding that in which the candidate proposes to present himself at the entrance examination.

If any person, giving certificates as above under (*c*), (*d*), and (*e*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(ii) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that Officer may either accept or reject the application, without assigning any reason for so doing; or he may require the candidate to produce other or better certificates in person before him.

(iii) Conservators may, at their option, test the fitness of a candidate who desires to enter the service of Government by practical work in the forests.

(iv) Those candidates who have been approved by the Conservator will be permitted, under his recommendation, to appear at the next entrance examination for the Forest School held in his Circle.

† "Native of India" means any person born and domiciled within the dominions of Her Majesty in India, or within the territories of Indian Princes tributary to or in alliance with Her Majesty, of parents habitually resident in India, and not established there for temporary purposes only. (Article 45, Civil Service Regulations.)

(v) The *Entrance Examination* is held in the month of January each year, on such date as may be fixed by the Director, both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such Officers, Educational, Revenue, Forest, or other, as may be appointed : provided that the date shall be communicated by the Director to Local Governments and Conservators on or before 1st November. The subjects of examination are :—

		Minima Pass marks.	Per cent.
1. English	Conversation	..	50
	Composition	..	33
2. Arithmetic		..	40
3. Algebra, up to and including Quadratic Equations ..		..	40
4. Elements of Euclid, Books 1 to IV and VI, with examples..		..	25
5. Mensuration—lengths, areas and volumes, with examples..		..	25

The examination papers on the above subjects will be forwarded by the Director, in sealed covers, to such officials as the Local Governments may direct, in the month preceding the examination.

(vi) A Local Government may lay down rules under which the number of candidates allotted, under Rule 10, to the Province for admission into the school, shall be selected from the number of passed candidates. In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list ; provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard.

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard at any University in India, or in the United Kingdom, or in a British Colony, or at any educational institution to which the Government of India may extend the privilege : provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination and who may appear more eligible for the Forest Service.

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the school. These expenses are estimated to be not less than Rs. 822½ for each student living in Native fashion, and Rs. 1,057½ in the case of those living in European fashion (*vide* Rule 21). Of these sums, parents or guardians must deposit with the Director, before the course commences, a sum of Rs. 141 in the case of Native students and Rs. 188 in the case of European students, to meet the initial cost of uniform, books, instruments, stationery, and camp-equipage (*vide* Rule 18), and, in addition, Rs. 50 as caution-money.

(ix) Local Governments may, on the recommendation of a Conservator or of the Director, and in exceptional cases, allow selected private students who have passed the entrance examination a monthly stipend, not exceeding Rs. 50, to assist them through the school course : provided that such selected private students previously execute an agreement binding themselves to serve the Local Government concerned (in the event of their obtaining the school certificate) for a period of not less than five years (*vide* Rule 17). Such monthly stipend may, in case of misconduct or unsatisfactory progress at the school be reduced, or altogether withdrawn, at the discretion of the Director.

(x) The names of those private students who succeed in obtaining the school certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those Circles, in which the non-stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students. The Conservators concerned will, for this purpose, be furnished with the original certificates, already referred to in clause (i) of this Rule, the school certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish.

(xi) A list of private students, who may not succeed in obtaining appointments, will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Darbars, Conservators, and other persons likely to be in need of the services of trained Forest Officials.

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various Circles, and even a stipendiary student has no claim to such appointment.

(v) The *Entrance Examination* is held in the month of January each year, on such date as may be fixed by the Director, both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such Officers, Educational, Revenue, Forest, or other, as may be appointed : provided that the date shall be communicated by the Director to Local Governments and Conservators on or before 1st November. The examination papers on the above subjects will be forwarded by the Director, in sealed covers, to such officials as the Local Governments may direct, in the month preceding the examination.

(vi) A Local Government may lay down rules under which the number of candidates allotted, under Rule 10, to the Province for admission into the school, shall be selected from the number of passed candidates. In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list ; provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard.

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard at any University in India, or in the United Kingdom, or in a British Colony, or at any educational institution to which the Government of India may extend the privilege : provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination and who may appear more eligible for the Forest Service.

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the school. Of these sums, parents or guardians must deposit with the Director, before the course commences, a sum of Rs. 141 in the case of Native students and Rs. 188 in the case of European students, to meet the initial cost of uniform, books, instruments, stationery, and camp-equipage (*vide* Rule 18), and, in addition, Rs. 50 as caution-money.

Such monthly stipend may, in case of misconduct or unsatisfactory progress at the school be reduced, or altogether withdrawn, at the discretion of the Director.

(x) The names of those private students who succeed in obtaining the school certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those Circles, in which the non-stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students. The Conservators concerned will, for this purpose, be furnished with the original certificates, already referred to in clause (i) of this Rule, the school certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish.

(xi) A list of private students, who may not succeed in obtaining appointments, will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Darbars, Conservators, and other persons likely to be in need of the services of trained Forest Officials.

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various Circles, and even a stipendiary student has no claim to such appointment.

4. The monopoly covers only so much of the river as lies within 500 yards on each side of the ferry. The Deputy Commissioner forbids both the transports within these limits of passengers, &c., as aforesaid, and the collection of tolls therefor, except by or on behalf of the lessee or other person authorized by the Deputy Commissioner.

5. The accepted bidder shall, immediately on the declaration of the acceptance of his bid, produce before the officer conducting the sales one-fourth of the accepted bid, failing which, the lease will be re-sold at the first purchaser's risk.

6. The accepted bidder shall, within four days of the acceptance of the bid, execute, in favor of the Deputy Commissioner, a muchalika on a stamped paper with two tangible sureties for the due fulfilment of the contract, and deliver it to the Amildar or Sheristadar as the case may be; and thereupon the Deputy Commissioner will authorize the executant of the said mutchalika to enter into his contract. If the accepted bidder fails to execute and deliver the mutchalika, the lease will be re-sold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

7. Where there are no boats or "Tokaras," they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer, or Amildar.

8. Wherever boats and platforms are provided by Government, they shall be returned to Government on the termination of the lease or on being demanded by the Deputy Commissioner or other officer authorized by him, on the same condition on which they were supplied to him, subject only to reasonable wear and tear. Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

9. The lessee shall be entitled to collect tolls at the rates specified in the list hereto annexed, and no fee or toll shall be demanded on the cases enumerated below :—

(*a*) Government mails, stores and remittances, and all persons, animals, and vehicles employed in carrying the same.

(*b*) All Government officials including troops travelling on duty, and also in the case of Police officers, prisoners and property in their custody.

(*c*) All parties employed by Government servants to carry official reports, when so carrying such reports.

(*d*) Children under 12 years of age.

(*e*) The Deputy Commissioner is, at any time and for any length of time, at liberty to attach the ferry boats for the conveyance of troops, camp equipage, and followers, and the contractors and their servants will be bound to give all reasonable assistance to ensure their speedy and safe carriage.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1896, the deposit being credited to the last three "Khists." All payments shall be made in the Taluk Treasuries in which the ferry lies.

11. At each ferry a board showing the rates and the weight to be carried, should be put up in a conspicuous place by the lessee at all times, when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

12. The Deputy Commissioner reserves to himself the power of accepting or rejecting any bid without assigning any reasons therefor.

13. The contractor shall have a sufficient number of boats in readiness at either side of the ferry and shall take care that mails, travellers, passengers, animals, carriages, &c., are not unnecessarily delayed whether by day or night, but are ferried over with expedition.

14. Every passenger crossing a ferry is allowed to carry with him his luggage not exceeding in weight an Indian maund without any additional fee for the same. Any quantity in excess of the above will be liable to an additional fee of one anna for each Indian maund or less.

15. Should the contractor be found to have acted contrary to any of the above rules, he shall, every breach of such rules, be liable to a fine not exceeding Rs. 50, or as the Deputy Commissioner may deem fit.

1. As the President Mr. B. K. Venkatavaradaiengar was otherwise engaged, and consequently could not preside at the meeting, it was proposed by Mr. Amble Annaiya Pandit, and resolved that Mr. V. H. Karve should preside on the occasion.

2. The following papers for 1896-97 were next placed before the board.

(1) Consolidated budget estimates of receipts and expenditure for 1896-97.
(2) Statement showing the assets upon which the local cess has been calculated for 1896-97.
(3) Details of original works proposed to be executed by the department of Public Works and the Revenue Department.
(4) Details of allotment of expenditure on repairs to be carried out by the Public Works and the Revenue Departments.
(5) Details of Civil charges.
(6) Statement showing the Talukwar estimates of receipts and expenditure.

Estimate of Receipts.

3. The estimate of receipts under one anna cess on land revenue has been calculated with reference to the several items of land revenue settled at the Jamabandi for 1894-95, the latest year for which the accounts are available. To the estimated receipts from local cess, a sum of Rs. 5,000 expected to be collected out of the arrears (under the head "Local Cess") at the beginning of the year for which the estimate is submitted (*i. e.*, 1896-97) is added, and the whole of the amount thus derived is expected to be collected during 1896-97 *vide* Enclosure A and its supplement for details. The estimates of receipts under other items such as sale of stray cattle, &c., are based upon an average of the actual collections for the two years 1893-94 and 1894-95, except the items Nos. VI and VII, *viz.*, "Tolls" and fees from Travellers' Bangalos. The question of crediting the entire collections of toll revenue to District Funds was for some time past under correspondence, and it was finally settled that the said income should be divided in such proportion between the District and Provincial Funds as would hereafter be fixed by Government *vide*, Chief Engineer's letter No. 5972, dated 4th December 1894. Pending final settlement of this question, the whole of the probable collections under this head is proposed to be credited to District Funds.

The probable receipts from tolls for 1896-97 are based upon the actuals for 1894-95, when the system was under *amani* agency.

Item No. VII, *viz.*, the collection of fees from Travellers' Bangalos is entered as Rs. 100. It is observed that the average collection for the two years 1893-94 and 1894-95 was unduly low. The total receipts under all heads as above estimated amount to Rs. 74,388 against the actual receipts of Rs. 68,478 for 1894-95, and the sanctioned estimate of Rs. 57,416 for 1895-96. The opening balance at the credit of the Board is estimated at Rs. 44,859 on the 1st July 1896, as shown in the margin and sanctioned in G. O. No. 6667-71—L. F. 146-94 of the 9th December 1895. Thus the total assets for 1896-97, come to Rs. 1,19,247, out of which Rs. 93,661, is resolved to be spent during the next official year.

	Rs.	
Estimated receipts including opening balance for 1895-96 ...	12,6,050	
Expenditure Sanctioned.	Rs.	
1. Civil charges	21,154	
2. P. W. D. Works	39,835	81,191
3. Revenue Department Works	20,702	
		44,849

4. *Statement of Assets.*—For remarks, *vide* its supplemental statement.

5. *Expenditure.*—Statement of public works to be executed by the Department Public Works.

The estimate of expenditure as furnished by the Executive Engineer was next considered by the Board.

The provision made under the several heads was as follows :—

		Rs.
1.	Original works	21,635
2.	Repairs	17,500
3.	Establishment	8,800
4.	Tools and plant	200
5.	Reserve	7,665
	Total.. ..	55,800

These were discussed and approved with the following remarks and additions.

(1) As it was at many a time considered quite necessary to construct Musafirkhanas at Ummattur, Yedatore and Tirukanambi for the convenience of the public in general, it was resolved that these three works should be undertaken during the next year according to the standard plan, and an allotment of Rs. 4,500 made for them for the next year.

(2) The subject of railing the roads passing over tank bunds was proposed at the last Dasara Representative Meeting (*vide*, Subject No. 522) and the matter was referred to the Local Fund Board to be disposed of, *vide* General Secretary's No. 2762—Mis. 394 of the 27th August 1895). The Executive Engineer who was requested to furnish the plan and estimate for the works, intimated in his docket No. 4621—1559 of the 1st December 1895, that the total length of tank bunds over which the District Fund roads ran, was about 7 miles, that their railing with iron rails was estimated to cost Rs. 60,000 and that wooden railing might probably cost half that amount. The Board preferred the iron railing as the wooden one would require renewal once in two or three years and would moreover be liable to be stolen. Accordingly it was resolved to provide Rs. 6,000 for this work in the next year's District Fund Budget.

(3) The earthwork to the Mysore-Naganahalli road having been done some years ago by the villagers, it was resolved in 1893-94 to construct tunnels on the said road, and funds being now available, Rs. 3,000 are provided for that work.

(4) With regard to the necessity of other original works and changes in the annual repairs of certain roads, para 3 of Executive Engineer's letter No. 1047 of 4th December 1895, was read to, and approved of by board, (*vide* extract submitted.)

(5) In consequence of the additions made by the Board to allotment under "Original works" the establishment charge had to be raised proportionately. Taking the charge at 17½ per cent as sanctioned in G. O. No. 4449-58—L. F. 210-92, dated 23rd October 1895, on the works proposed to be executed, the amount was raised from Rs. 8,800 to Rs. 10,030. Thus the proposed expenditure as passed by the Board stands as noted below :—

	Rs.
Original works	28,000
Repairs	21,635
Establishment	10,030
Tools and plant	200
Reserve	7,665
Total.. ..	67,530

6. Statement of works to be carried out in the Revenue Department.

The list of works to be carried out in the Revenue Department was next placed before the Board. It was passed with the following remarks and observations :—

(1) The provision made and sanctioned by the Government in the District Fund Budget for 1894-95 for repairing bathing ghats to the Kapila at Nanjangud was not utilised during that year as the estimate was not ready. During 1895-96, no provision was made. This year it is proposed to allot Rs. 2,000, being one-half of the total estimated cost of the work; the balance the Municipality has agreed to pay. The estimate has been submitted already to Government.

(2) A list of the original works to be carried out in the Revenue Department as passed by the Board for Rs. 4,500 is herewith appended.

(3) It was brought to the notice of the board that it was not possible to prepare a list of works requiring repairs hereafter, so a lump sum provision of Rs. 1,500 is made for this purpose.

(4) An allotment of Rs. 2,100 was proposed to be reserved for petty works to be carried out by the Revenue Department, such as drinking water wells, tunnels, &c., that might be required hereafter and for completing the works that might remain incomplete at the close of the year 1895-96.

(5) A sum of Rs. 900 was passed for establishment charges, calculating at 10 per cent on the works proposed to be executed. Thus the expenditure under "Works to be done by the Revenue Department" as passed by the Board stands at Rs. 9,000 as particularized below :—

		Rs.
1.	Original works	4,500
2.	Repairs	1,500
3.	Establishment	900
4.	Reserve	2,100
	Total	9,000

7. Statement of Civil Charges.

The statement of Civil Charges was next read. It was approved with the following observations :—

(1) An increase of Rs. 30 under "—1 office establishment" was made to provide furniture for the head-quarter office, as the sum sanctioned in the budget for 1894-95, was not utilized.

(2) As no information regarding the amount of Medical scholarship to be given during 1896-97 is furnished to this office, the amount sanctioned in the budget for 1895—96, *viz.*, Rs. 209 is here also repeated.

(3) There is a decrease of Rs. 273 under "Hospitals" and "Dispensaries" as the provision of furniture is here omitted. The next year's amount for "Hospitals" is also less by Rs. 1,033 than the actuals for 1894-95, as the quota of expenditure on account of the Indigenous Hospital at Mysore is debitable to Local Funds General instead of to District Funds as per G. O. No. 10127-9—L. F. 79-92 of the 20th December 1894.

(4) An increase of Rs. 200 is allowed under the head "Midwives" to meet the allowances to be paid to these women for extra work to be done by them, as ordered in Government Proceedings No. 4629-40—L. F. 55-93 of the 7th September 1893.

(5) There is a decrease of Rs. 1,380, under "Travellers' Bangalos" and "Musafirkhanas" owing to decrease of establishment agreeably to Government Proceedings No. 6074-6—L. F. 72-94 of 18th November 1895.

(6) The provision under VI. Conservancy and Sanitary charges" is reduced from Rs. 8,000 to Rs. 4,000 as the latter sum is considered sufficient for the next year.

(7) Under "IX Contribution" a provision of Rs. 300 is made on account of paying Rs. 100 to Baneswara temple as sanctioned in G. O. No. 4610-11—L. F. 405-92, dated 12th September 1893, and of Rs. 200 for repairs to dispensaries.

(8) An increase of Rs. 500 is entered under "Repairs to cattle-pounds," as many of these pounds require extensive repairs.

(9) An increase of Rs. 600 is made under "reserve for unforseen expenditure." Thus the total Civil charges under all heads amount to Rs. 17,131 against Rs. 21,154 as per sanctioned estimate for 1895-96.

(10) The estimates of receipts and expenditure as passed by the Board are given in detail in the accompanying statements of which the following is a summary :—

		Rs.
1.	Estimated opening balance on 1st July 1896	44,849
2.	Estimated receipts for 1896-97	74,388
	Total ..	1,19,237

3.—*Estimated Expenditure.*

1.	Civil charges	17,131	
2.	Public works to be executed by P. W. D.	67,530	
3.	Do by Revenue Department..	9,000	
	Total ..	93,661	

4. Estimated closing balance Rs. 25,576.

As per orders conveyed in Proceedings No. 21210-14—L. F. 230-93, dated 8th June 1894, the closing balance should be Rs. 29,809, but it is not possible to keep to it unless some of the works are omitted. It is considered that Rs. 25,576 is a large closing balance, but if the Government should insist upon adhering to the limit fixed in the aforesaid proceedings, the Board would request that the three Musafirkhanas proposed to be constructed and for which Rs. 4,000 is allotted may be transferred to Provincial Funds Budget.

The last three certificates must bear date not further back than the 1st August of the year preceding that in which the candidate proposes to present himself at the entrance examination.

If any person, giving certificates as above under (*c*), (*d*), and (*e*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(ii) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that Officer may either accept or reject the application, without assigning any reason for so doing; or he may require the candidate to produce other or better certificates in person before him.

(iv) Those candidates who have been approved by the Conservator will be permitted, under his recommendation, to appear at the next entrance examination for the Forest School held in his Circle.

† "Native of India" means any person born and domiciled within the dominions of Her Majesty in India, or within the Territories of Indian Princes tributary to or in alliance with Her Majesty, of parents habitually resident in India, and not established there for temporary purposes only. (Article 45, Civil Service Regulations.)

(v) The *Entrance Examination* is held in the month of January each year, on such date as may be fixed by the Director, both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such Officers, Educational, Revenue, Forest, or other, as may be appointed : provided that the date shall be communicated by the Director to Local Governments and Conservators on or before 1st November. The subjects of examination are :—

The examination papers on the above subjects will be forwarded by the Director, in sealed covers, to such officials as the Local Governments may direct, in the month preceding the examination.

(vi) A Local Government may lay down rules under which the number of candidates allotted, under Rule 10, to the Province for admission into the school, shall be selected from the number of passed candidates. In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list ; provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard.

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard at any University in India, or in the United Kingdom, or in a British Colony, or at any educational institution to which the Government of India may extend the privilege : provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination and who may appear more eligible for the Forest Service.

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the school. These expenses are estimated to be not less than Rs. 822½ for each student living in Native fashion, and Rs. 1,057½ in the case of those living in European fashion (*vide* Rule 21). Of these sums, parents or guardians must deposit with the Director, before the course commences, a sum of Rs. 141 in the case of Native students and Rs. 188 in the case of European students, to meet the initial cost of uniform, books, instruments, stationery, and camp-equipage (*vide* Rule 18), and, in addition, Rs. 50 as caution-money.

(ix) Local Governments may, on the recommendation of a Conservator or of the Director, and in exceptional cases, allow selected private students who have passed the entrance examination a monthly stipend, not exceeding Rs. 50, to assist them through the school course : provided that such selected private students previously execute an agreement binding themselves to serve the Local Government concerned (in the event of their obtaining the school certificate) for a period of not less than five years (*vide* Rule 17). Such monthly stipend may, in case of misconduct or unsatisfactory progress at the school be reduced, or altogether withdrawn, at the discretion of the Director.

(x) The names of those private students who succeed in obtaining the school certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those Circles, in which the non-stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students. The Conservators concerned will, for this purpose, be furnished with the original certificates, already referred to in clause (i) of this Rule, the school certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish.

(xi) A list of private students, who may not succeed in obtaining appointments, will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Darbars, Conservators, and other persons likely to be in need of the services of trained Forest Officials.

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various Circles, and even a stipendiary student has no claim to such appointment.

N. B.—No tolls will be levied on foot passengers.

Notification, dated 26th January 1896.

The exclusive right of transporting passengers, goods, vehicles, animals, &c., and of collecting tolls at the ferries specified in the annexed list will be put up to auction on the dates specified therein by the Amildar or Sheristadar at each Taluk, subject to the confirmation of the Deputy Commissioner.

2. The auction will begin at 12 noon on the days fixed, and will, if necessary, be continued on the following days.

3. The ferries will be leased out for twelve months from 1st July 1896 to 30th June 1897.

4. The monopoly covers only so much of the river as lies within 500 yards on each side of the ferry. The Deputy Commissioner forbids both the transports within these limits of passengers, &c., as aforesaid, and the collection of tolls therefor, except by or on behalf of the lessee or other person authorized by the Deputy Commissioner.

5. The accepted bidder shall, immediately on the declaration of the acceptance of his bid, produce before the officer conducting the sales one-fourth of the accepted bid, failing which, the lease will be re-sold at the first purchaser's risk.

6. The accepted bidder shall, within four days of the acceptance of the bid, execute, in favor of the Deputy Commissioner, a muchalika on a stamped paper with two tangible sureties for the due fulfilment of the contract, and deliver it to the Amildar or Sheristadar as the case may be; and thereupon the Deputy Commissioner will authorize the executant of the said mutchalika to enter into his contract. If the accepted bidder fails to execute and deliver the mutchalika, the lease will be re-sold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

7. Where there are no boats or "Tokaras," they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer, or Amildar.

8. Wherever boats and platforms are provided by Government, they shall be returned to Government on the termination of the lease or on being demanded by the Deputy Commissioner or other officer authorized by him, on the same condition on which they were supplied to him, subject only to reasonable wear and tear. Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

9. The lessee shall be entitled to collect tolls at the rates specified in the list hereto annexed, and no fee or toll shall be demanded on the cases enumerated below :—

(*a*) Government mails, stores and remittances, and all persons, animals, and vehicles employed in carrying the same.

(*b*) All Government officials including troops travelling on duty, and also in the case of Police officers, prisoners and property in their custody.

(*c*) All parties employed by Government servants to carry official reports, when so carrying such reports.

(*d*) Children under 12 years of age.

(*e*) The Deputy Commissioner is, at any time and for any length of time, at liberty to attach the ferry boats for the conveyance of troops, camp equipage, and followers, and the contractors and their servants will be bound to give all reasonable assistance to ensure their speedy and safe carriage.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1896, the deposit being credited to the last three "Khists." All payments shall be made in the Taluk Treasuries in which the ferry lies.

11. At each ferry a board showing the rates and the weight to be carried, should be put up in a conspicuous place by the lessee at all times, when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

12. The Deputy Commissioner reserves to himself the power of accepting or rejecting any bid without assigning any reasons therefor.

13. The contractor shall have a sufficient number of boats in readiness at either side of the ferr and shall take care that mails, travellers, passengers, animals, carriages, &c., are not unnecessa delayed whether by day or night, but are ferried over with expedition.

14. Every passenger crossing a ferry is allowed to carry with him his luggage not in weight an Indian maund without any additional fee for the same. Any quantity in ex above will be liable to an additional fee of one anna for each Indian maund or less.

15. Should the contractor be found to have acted contrary to any of the above rules, he shall, for every breach of such rules, be liable to a fine not exceeding Rs. 50, or as the Deputy Commissioner may deem fit.

1. The accounts of Receipts and Disbursements for the month of December 1895 were considered.

Resolved.—That they be passed.

2. The nomination of a Sub-Committee to consider the Draft budget for 1896-97 was considered.

Resolved.—That Messrs. M. L. Narasimmaiengar, Mailari Rao, Kantiravachar, Venkatakrishnaiya, Fathekhan and Narayanasami Mudaliar, do form themselves into a Sub-Committee with the Vice-President as the Chairman to consider the Budget for 1896-97.

3. Letter dated the 20th December 1895, from Messrs Best & Co., Madras, stating in reply that they built the Kerosine Oil Depôt by the side of Dufferin road with permission from the Railway authorities was considered.

Resolved.—That the apology of the Company for having erected the building in question without the permission of the Board be accepted.

4. Considered the petition dated the 30th October 1895, from the inhabitants of Varahaswami Agrahar in the Fort Mohalla Division, complaining of the dampness of their houses by the stagnation of water during rainy season in the vegetable garden of Mr. Narase Aras next to their houses, and the Mohalla Commissioner's opinion in favor of the removal of the pond and of opening a road by the side of these houses.

Resolved.—That the garden and the pond be acquired, the pond be filled up, and the garden land sold in bits for building houses.

5. Considered the following proposals by Mr. Kantiravachar, Commissioner, for the Krishnaraj Mohalla Division :—

(1) That the pay of certain sweepers in the Mohalla be raised from Rs. 4 to 5.

There are at present 116 sweepers on Rs. 4, 88 on Rs. 5, and 17 on Rs. 6 Resolved that there be 90 on Rs. 4, 100 on Rs. 5, and 30 on Rs. 6 And resolved that the sanction of Government be obtained to this.

(2) That the building sites lying vacant in the streets and roads be taxed as in the Madras Presidency, as it will induce the owners to construct buildings on them and thus remove the nuisance to which the neighbours are subjected.

The Board admits the force of this proposal and so resolves that the Government be asked to introduce into this Municipality the rule of taxing vacant sites as in the Minor Municipalities and villages; the same being allowable under Section 34 of the Mysore City Municipal Regulation.

6. Application, dated the 6th January 1896, from the Sanitary Inspector, praying that his present pay and horse allowance of Rs. 50 and, 10 may be raised to Rs. 100 and Rs. 20 per mensem was considered.

7. The report of the Sub-Committee giving opinion about relieving the Municipality of the liability to pay grants-in-aid to High Schools and utilizing the savings for the Primary Schools was considered.

Resolved.—That the views of the Sub-Committee be adopted and the same communicated to the Inspector General of Education in reply to his letter on the subject.

8. Read the report of the Sub-Committee suggesting the means for repayment of the loan of five or six lakhs of rupees required to make certain sanitary improvements in the town of Mysore.

Resolved.—That as the site selected for the cremation ground is too close to the bathing-ghat it be abandoned and a more suitable one be chosen by a Committee consisting of Messrs. Venkatakrishnaiya, Ramanna, Shek Ibrahim Sahib, Kantiravachar and Krishna Rao.

10. Read, the estimate amounting to Rs. 1,418 for constructing box-drains at the eastern side of D. Subbaiya's road and western side of Dewan's road

Resolved.—That the report of the Sub-Committee be adopted and submitted to Government in reply to their reference on the subject.

Note by the President.—The three years term of office of the Commissioners is too short. It ought to be at least five years, as it will take time to get acquainted with the work.

12. Considered the proposals by Mr. Kantiravachar, Municipal Commissioner for the Krishnaraj Mohalla Division, that public fountains be constructed in each of the Kempananjamba, Devamba and Cheluvamba Agrahars for the use of the persons living in those Agraharams.

Tenders are hereby invited for one year's supply of casuarina fuel for pumping-engines at Chikbanavar, Hessarghatta Water-supply project.

2. Printed forms of tender will be supplied on application, free of cost, by the Executive Engineer. These forms should be filled in, signed by the Contractor and forwarded in sealed covers to the Executive Engineer before the 29th February 1896.

3. The final acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender, or to assign any reason whatever for the rejection of any tender.

4. No tenders will be received unless accompanied by a deposit of Rs. 500 as earnest money.

5. Within eight days of the acceptance of the tender, the Contractor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled, and his earnest money will be taken to meet any loss that may be sustained by Government.

6. The name of the Contractor, whose tender has been accepted, will be posted on the notice board in the Executive Engineer's office in due course. No enquiries respecting the acceptance or rejection of a tender will receive any reply whatever.

7. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned to applicants in due course.

8. The quantity required is 3,240 tons, of which 600 tons should be delivered by the end of May 1896, and the remainder at the rate of 270 tons per month.

9. Fuel to be supplied in strict accordance with specification and to be stacked by Contractor in required heaps at site pointed out in pumping station yard.

Specification.

The wood to be solely casuarina and to be in straight lengths.

The maximum and minimum dimensions which will be accepted are given below:—

	Length.		*Thickness.*	
	Maximum.	Minimum.	Maximum.	Minimum.
Running wood .. .	24 inches.	18 inches.	8 inches.	3 inches.
Lighting wood ..	24 do	12 do	3 do	1½ do

One per cent of the quantity supplied may be of the dimensions specified for lighting wood, the remainder being of the dimensions specified for running wood. The billets are to be sawn to lengths not chopped.

The wood to be stacked by the contractor in the positions approved by the Executive Engineer or his representatives.

Lighting and running wood to be stacked separately. Stacks must be of rectangular shape the sides being vertical and straight and the tops level; the wood must be laid evenly straight and close; the pieces composing the walls must be laid at right angles to the direction of such walls, having first been sawn to an uniform length, the interior of the stacks must be packed as closely as possible, the pieces being regularly laid with their lengths all in one direction.

The stacks to be built of such dimensions that the cubical measurements of each is a multiple of 68 thus—

17 feet by 8 feet by 5 feet = 680 cubic feet = 10 tons.
17 feet by 16 feet by 5 feet = 1,360 cubic feet = 20 tons.
34 feet by 20 feet by 5 feet = 3,400 cubic feet = 50 tons.

Sixty-eight cubic feet of closely stacked wood will be accepted as equivalent to one ton. The Executive Engineer or his representatives will inspect the wood as it is being stacked and shall have power to reject any pieces that are hollow, rotten, crooked or otherwise unsuitable for fuel for engines; he will also satisfy himself that the pieces are in accordance with the dimensions specified above and that the stacks are built as required; he shall also have power to reject any stacks which do not in all respects comply with the terms of this specification.

The wood must be at the risk of the Contractor until it is stacked, approved, measured and accepted by the Executive Engineer or his representatives.

When stacks are taken over the Contractor or his representative must be present during the measurement and must sign the record of measurement made by the Executive Engineer or his representatives in token of his agreement to the corrections thereof.

Payments to be made monthly for all wood taken over by the Executive Engineer in charge. A reserve of 5 per cent being however withheld on all bills as guarantee for fulfilment of contract. Should the Contractor fail to deliver 600 tons by the end of May 1896, or after that date fail to deliver 270 tons monthly, he will be liable to a fine of Rs. 2 per ton for each ton his delivery may be short of the above mentioned quantity or to cancelment of contract at the option of the Chief Engineer. Cancelment of contract will involve loss of security deposit and of full amount of reserve withheld as guarantee fund.

HESSARGHATTA WATER-SUPPLY DIVISION. [ADVERTISEMENT.

Tenders are hereby invited for one year's supply of casuarina fuel for pumping-engines at Chikbanavar, Hessarghatta Water-supply project.

2. Printed forms of tender will be supplied on application, free of cost, by the Executive Engineer. These forms should be filled in, signed by the Contractor and forwarded in sealed covers to the Executive Engineer before the 29th February 1896.

3. The final acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender, or to assign any reason whatever for the rejection of any tender.

4. No tenders will be received unless accompanied by a deposit of Rs. 500 as earnest money.

5. Within eight days of the acceptance of the tender, the Contractor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled, and his earnest money will be taken to meet any loss that may be sustained by Government.

6. The name of the Contractor, whose tender has been accepted, will be posted on the notice board in the Executive Engineer's office in due course. No enquiries respecting the acceptance or rejection of a tender will receive any reply whatever.

7. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned to applicants in due course.

8. The quantity required is 3,240 tons, of which 600 tons should be delivered by the end of May 1896, and the remainder at the rate of 270 tons per month.

9. Fuel to be supplied in strict accordance with specification and to be stacked by Contractor in required heaps at site pointed out in pumping station yard.

Specification.

The wood to be solely casuarina and to be in straight lengths.

The maximum and minimum dimensions which will be accepted are given below:—

	Length.		*Thickness.*	
	Maximum.	Minimum.	Maximum.	Minimum.
Running wood ..	24 inches.	18 inches.	8 inches.	3 inches.
Lighting wood ..	24 do	12 do	3 do	1½ do

One per cent of the quantity supplied may be of the dimensions specified for lighting wood, the remainder being of the dimensions specified for running wood. The billets are to be sawn to lengths not chopped.

The wood to be stacked by the contractor in the positions approved by the Executive Engineer or his representatives.

Lighting and running wood to be stacked separately. Stacks must be of rectangular shape the sides being vertical and straight and the tops level; the wood must be laid evenly straight and close; the pieces composing the walls must be laid at right angles to the direction of such walls, having first been sawn to an uniform length, the interior of the stacks must be packed as closely as possible, the pieces being regularly laid with their lengths all in one direction.

The stacks to be built of such dimensions that the cubical measurements of each is a multiple of 68 thus—

17 feet by 8 feet by 5 feet = 680 cubic feet = 10 tons.
17 feet by 16 feet by 5 feet = 1,360 cubic feet = 20 tons.
34 feet by 20 feet by 5 feet = 3,400 cubic feet = 50 tons.

Sixty-eight cubic feet of closely stacked wood will be accepted as equivalent to one ton. The Executive Engineer or his representatives will inspect the wood as it is being stacked and shall have power to reject any pieces that are hollow, rotten, crooked or otherwise unsuitable for fuel for engines; he will also satisfy himself that the pieces are in accordance with the dimensions specified above and that the stacks are built as required; he shall also have power to reject any stacks which do not in all respects comply with the terms of this specification.

The wood must be at the risk of the Contractor until it is stacked, approved, measured and accepted by the Executive Engineer or his representatives.

When stacks are taken over the Contractor or his representative must be present during the measurement and must sign the record of measurement made by the Executive Engineer or his representatives in token of his agreement to the corrections thereof.

Payments to be made monthly for all wood taken over by the Executive Engineer in charge. A reserve of 5 per cent being however withheld on all bills as guarantee for fulfilment of contract. Should the Contractor fail to deliver 600 tons by the end of May 1896, or after that date fail to deliver 270 tons monthly, he will be liable to a fine of Rs. 2 per ton for each ton his delivery may be short of the above mentioned quantity or to cancelment of contract at the option of the Chief Engineer. Cancelment of contract will involve loss of security deposit and of full amount of reserve withheld as guarantee fund.

HESSARGHATTA WATER-SUPPLY DIVISION. [ADVERTISEMENT.

Tenders are hereby invited for one year's supply of casuarina fuel for pumping-engines at Chikbanavar, Hessarghatta Water-supply project.

2. Printed forms of tender will be supplied on application, free of cost, by the Executive Engineer. These forms should be filled in, signed by the Contractor and forwarded in sealed covers to the Executive Engineer before the 29th February 1896.

3. The final acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender, or to assign any reason whatever for the rejection of any tender.

4. No tenders will be received unless accompanied by a deposit of Rs. 500 as earnest money.

5. Within eight days of the acceptance of the tender, the Contractor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled, and his earnest money will be taken to meet any loss that may be sustained by Government.

6. The name of the Contractor, whose tender has been accepted, will be posted on the notice board in the Executive Engineer's office in due course. No enquiries respecting the acceptance or rejection of a tender will receive any reply whatever.

7. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned to applicants in due course.

8. The quantity required is 3,240 tons, of which 600 tons should be delivered by the end of May 1896, and the remainder at the rate of 270 tons per month.

9. Fuel to be supplied in strict accordance with specification and to be stacked by the Contractor in required heaps at site pointed out in pumping station yard.

Specification.

The wood to be solely casuarina, and to be in straight lengths.

The maximum and minimum dimensions which will be accepted are given below:—

	Length.		*Thickness.*	
	Maximum.	Minimum.	Maximum.	Minimum.
Running wood ..	24 inches.	18 inches.	8 inches.	3 inches.
Lighting wood ..	24 do	12 do	3 do	1½ do

One per cent of the quantity supplied may be of the dimensions specified for lighting wood, the [illegible] of the dimensions specified for running wood. The billets are to be sawn to lengths [illegible] chopped.

The wood to be stacked by the contractor in the positions approved by the Executive Engineer or his representatives.

Lighting and running wood to be stacked separately. Stacks must be of rectangular shape, the sides being vertical and straight, and the tops level; the wood must be laid evenly straight and close; the pieces composing the walls must be laid at right angles to the direction of such walls, having first been sawn to an uniform length; the interior of the stacks must be packed as closely as possible, the pieces being regularly laid with their lengths all in one direction.

The stacks to be built of such dimensions that the cubical measurements of each is a multiple of 68 thus—

17 feet × 8 feet × 5 feet = 680 cubic feet = 10 tons.
17 feet × 16 feet × 5 feet = 1,360 cubic feet = 20 tons.
34 feet × 20 feet × 5 feet = 3,400 cubic feet = 50 tons.

Sixty-eight cubic feet of closely stacked wood will be accepted as equivalent to one ton. The Executive Engineer or his representatives will inspect the wood as it is being stacked and shall have power to reject any pieces that are hollow, rotten, crooked or otherwise unsuitable for fuel for engines; he will also satisfy himself that the pieces are in accordance with the dimensions specified above and that the stacks are built as required; he shall also have power to reject any stacks which do not in all respects comply with the terms of this specification.

The wood must be at the risk of the Contractor until it is stacked, approved, measured and accepted by the Executive Engineer or his representatives.

When stacks are taken over the Contractor or his representative must be present during the measurement, and must sign the record of measurement made by the Executive Engineer or his representatives in token of his agreement to the corrections thereof.

Payments to be made monthly for all wood taken over by the Executive Engineer in charge, a reserve of 5 per cent being, however, withheld on all bills as guarantee for fulfilment of contract. Should the Contractor fail to deliver 600 tons by the end of May 1896, or after that date fail to deliver 270 tons monthly, he will be liable to a fine of Rs. 2 per ton for each ton his delivery may be short of the above mentioned quantity or to cancelment of contract at the option of the Chief Engineer. Cancelment of contract will involve loss of security deposit and of full amount of reserve withheld as guarantee fund.

I. Read official memo No. 9567—L. F. 272-93 of the 18th February 1896, from the Secretary to Government in the Revenue and General Departments, forwarding for disposal the petition of Subba Sastri of Srirangarajpur Agrahar in the T. Narsipur Taluk, praying for the construction of a Dharmasala at Bevinahalli in the same taluk.

Resolved—that as there is a lot of accommodation at Bannur, which is only three miles from Bevinahalli where a Dharmasala is prayed for, it is not necessary to build one there (Bevinahalli).

Proposed by Mr. Amble Annaiya Pandit, that if the petitioner build a chattram there the Board may make a suitable grant.

Resolved—that if he builds a good useful chattram a suitable grant may, after further resolution, be made.

II. Read the Executive Engineer's docket No. 16—8 of the 6th January 1896, forwarding an estimate for Rs. 536 for executing some special repairs to Gundlupet-Chamrajnagar road.

Resolved—that it be passed as the Executive Engineer says that it is not possible to do the special repairs out of the annual maintenance allotment.

III. Read Government order No. 7189-97—L. F. 71-94 of the 21st December 1895, stating that it is not necessary to light the musafirkhanas.

Resolved—unanimously that the Government be requested to reconsider the matter as it is very necessary to light the musafirkhanas for the convenience of the poor travellers and as the cost thereof is very small.

IV. Read docket No. 451—149 of the 8th February 1896, forwarding for reconsideration the estimate for Rs. 2,625 for executing special repairs to Hunsur-Hangode road.

Resolved—that the Executive Engineer be requested to get on with the annual maintenance allowance as the road is not very important to spend more on it.

V. Read the T. Narsipur Amildar's report No. 32 of the 18th December 1895, sending an estimate for Rs. 60—9—0 for improving the sanitation of Bannur.

Resolved—that it be passed.

VI. Read Mr. Member Amble Annaiya Pandit's communication, dated the 23rd January 1896, suggesting the construction of cause-ways across the T. Narsipur-Chamrajnagar road between the 9th and 10th mile stones.

Resolved—that the work be got done at once.

VII. Read the Mysore Municipal Vice-President's Yadi No. 79 of the 17th February 1896, enquiring if the District Fund Board will bear one-third of the cost of paving the floor of the dispensary at Erangere with Kadapa stones.

Resolution—This Board is of opinion that it is not necessary to carry out this work.

VIII. There is a non-official member for each taluk, but none for the Gundlupet Taluk. It is, therefore, resolved that the Government be asked to raise the number of the non-official members from 7 to 8.

TUMKUR DISTRICT.

PROCLAMATION AND NOTIFICATION OF SALE OF IMMOVABLE PROPERTY FOR CULTIVATION.

The 18th February 1896.

It is hereby notified that under the Mysore Land Revenue Code and the Rules framed thereunder, the Halkurike Amrut Mahal kaval lands as per subjoined Schedule, in the Tiptur Taluk, which were newly handed over to the Revenue Department, and which will be irrigated by the Halkurike Tank, will be sold by public auction on the date and at the time and place noted in the Schedule.

2. The property will be knocked down to the highest bidder without reserve.

3. The purchaser will be required to deposit twenty-five per cent of the purchase money at the time of the sale, and in default the property will forthwith be again put up and sold.

4. The full amount of the purchase money shall be paid by the purchaser before sunset of the 15th day from that on which the sale of the land took place, or if the 15th day be an authorized holiday, then before sunset of the first office day after such 15th day.

5. When the full amount of the purchase money may not be paid within the time allowed, the deposit money shall be liable to forfeiture, and the property shall be re-sold at the expense and risk of the first purchaser. The omission on the part of the first purchaser to pay either the deposit amount forthwith or the balance of price shall render him liable to make good the deficiency, if any, in the 2nd sale, but shall not entitle him to any excess which may accrue in the amount of the highest bid at that sale. But in special case of hardship resulting by the enforcement of the said conditions, it will be discretionary with Government to order otherwise on the recommendation of the Deputy Commissioner. The deficiency will be recovered from the defaulter as if it were a revenue demand.

6. The sale will be subject to the confirmation of the Deputy Commissioner.

7. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids will be rejected.

8. After the confirmation of the sale the purchaser will be granted permission to occupy the land in Form No. 2, Appendix D.

EXCISE DEPARTMENT.

Notice No. 3689-48, *dated the* 18*th March* 1896.

SALE OF COUNTRY BEER TAVERNS IN THE CITY OF BANGALORE FOR 1896-97.

1. Notice is hereby given that the exclusive privilege of selling Country Beer or Porter in each of the three taverns at the Bangalore City specified in the appended schedule for the twelve months beginning with 1st July 1896 and ending with 30th June 1897, will be put up to public auction on the 16th April 1896 in the District office, by the Deputy Commissioner, Bangalore District, or other officer authorized by him.

2. Each bidder at the auction will deposit a sum of Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each tavern will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each tavern shall at once deposit a sum equal to $\frac{5}{8}$ths of a month's rent for that tavern. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the tavern will at once be put up again on the above conditions, and he will be debarred from bidding again for the same, or for any other tavern.

4. The persons to whom the taverns have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two month's rent of each tavern knocked down to them ; and shall take out licenses and execute a counterpart engagement, in the appended form, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the tavern will be resold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain ; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above, shall be subject to the following conditions, namely :—

(1) The privilege conferred by the license extends only to the sale of Country Beer or Porter brewed by Messrs. Leishman & Co., at Nilgiris, or by Messrs. Meakin & Co., Kirkee.

(2) The amount for which the privilege has been purchased shall be payable into the Bangalore Taluk Treasury in equal monthly instalments commencing from July 1896 ; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the chellan prescribed for the purpose. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the lease. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(3) The licensee shall further pay a duty of two annas for every gallon of Country Beer or Porter purchased by him.

(4) The consignment of Country Beer or Porter purchased by the licensee shall be sent direct from the Brewery to the Amildar, Bangalore Taluk. The letter of advice covering the consignment, shall be in duplicate, the original being sent to the Amildar of the Bangalore Taluk, and the duplicate to the Excise Commissioner. On the duty at the above mentioned rate being paid by the licensee on the prescribed chellan, the Amildar shall allow the licensee to remove the consignment to his tavern upon a pass signed by the Amildar or other officer authorized by him on this behalf.

(5) The licensee of every tavern at the Bangalore City shall pay a registration fee under the Municipal Regulation, at the rate of Rs. 180 per annum, in advance for the period of the license for his tavern.

(6) The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Beer or Porter, which forms shall be purchased from local Excise Officers.

(7) The licensee shall be bound to take over any Beer or Porter which may remain as stock in hand belonging to the out-going licensee on the 1st July 1896 in the existing tavern, paying to the latter such compensation for the same as may be fixed by the Excise Commissioner.

(8) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(9) The remaining terms and conditions shall be as set forth in the appended license.

7. In case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his tavern or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his tavern on 1st July 1896, shall be made good by him. When a lease is cancelled, the rent for the whole period of the lease shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or rules in force.

EXCISE DEPARTMENT.

Notice No. 3689-48, *dated the* 18*th March* 1896.

SALE OF COUNTRY BEER TAVERNS IN THE CITY OF BANGALORE FOR 1896-97.

1. Notice is hereby given that the exclusive privilege of selling Country Beer or Porter in each of the three taverns at the Bangalore City specified in the appended schedule for the twelve months beginning with 1st July 1896 and ending with 30th June 1897, will be put up to public auction on the 16th April 1896 in the District office, by the Deputy Commissioner, Bangalore District, or other officer authorized by him.

2. Each bidder at the auction will deposit a sum of Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each tavern will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each tavern shall at once deposit a sum equal to $\frac{5}{6}$ths of a month's rent for that tavern. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the tavern will at once be put up again on the above conditions, and he will be debarred from bidding again for the same, or for any other tavern.

4. The persons to whom the taverns have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two month's rent of each tavern knocked down to them ; and shall take out licenses and execute a counterpart engagement, in the appended form, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the tavern will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain ; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above, shall be subject to the following conditions, namely :—

(1) The privilege conferred by the license extends only to the sale of Country Beer or Porter brewed by Messrs. Leishman & Co., at Nilgiris, or by Messrs. Meakin & Co., Kirkee.

(2) The amount for which the privilege has been purchased shall be payable into the Bangalore Taluk Treasury in equal monthly instalments commencing from July 1896 ; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the chellan prescribed for the purpose. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the lease. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(3) The licensee shall further pay a duty of two annas for every gallon of Country Beer or Porter purchased by him.

(4) The consignment of Country Beer or Porter purchased by the licensee shall be sent direct from the Brewery to the Amildar, Bangalore Taluk. The letter of advice covering the consignment, shall be in duplicate, the original being sent to the Amildar of the Bangalore Taluk, and the duplicate to the Excise Commissioner. On the duty at the above mentioned rate being paid by the licensee on the prescribed chellan, the Amildar shall allow the licensee to remove the consignment to his tavern upon a pass signed by the Amildar or other officer authorized by him on this behalf.

(5) The licensee of every tavern at the Bangalore City shall pay a registration fee under the Municipal Regulation, at the rate of Rs. 180 per annum, in advance for the period of the license for his tavern.

(6) The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Beer or Porter, which forms shall be purchased from local Excise Officers.

(7) The licensee shall be bound to take over any Beer or Porter which may remain as stock in hand belonging to the out-going licensee on the 1st July 1896 in the existing tavern, paying to the latter such compensation for the same as may be fixed by the Excise Commissioner.

(8) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(9) The remaining terms and conditions shall be as set forth in the appended license.

7. In case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his tavern or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his tavern on 1st July 1896, shall be made good by him. When a lease is cancelled, the rent for the whole period of the lease shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or rules in force.

1. *Statement showing the Receipts and Disbursements under District Funds during September* 1895.—The accompanying statement (A) was read to the Board.

Resolution.—Passed and recorded.

2. *Statement showing the outlay on works under Local Funds General from July to the end of December* 1895.—The enclosed statement (B) was then placed before the Board.

Resolution.—Passed and recorded.

3. *Refund.*—Read Government Proceedings No. 7138-9—L. F. 258-93, dated 20th December 1895, in regard to the refund to the District Funds of Rs. 47,553, from Local Funds General.

Resolution.—As it is not possible to frame a proper Budget with due regard to the needs of the year, in consequence of the amount of Rs. 47,000 and odd being erroneously debited in the accounts to the District Funds, this sum should be taken as part of the assets of the fund and the Budget framed accordingly.

4. *Additions to the Dispensary at Arsikere.*—Read Executive Engineer's docket No. 459, dated 17th May 1895, forwarding plan and estimate amounting to Rs. 1,973, for constructing baths, privies and a masonry compound wall around the Dispensary at Arsikere, together with copy of Chief Engineer's inspection note, dated 18th January 1895.

Resolution.—Provision should be made accordingly for $\frac{1}{3}$rd of the cost to be borne by the District Funds in the Budget for 1896-97, the other $\frac{2}{3}$rd being borne by the Municipal and Provincial Funds as usual.

5. *Katte near Chamarajendrapura.*—Read Channarayapatna Amildar's Ittila No. 72, dated 2nd November 1895, forwarding plan and estimate for Rs. 500 for improving the katte near Chamarajendrapura, a village newly built. The Board observed that the improvement proposed was necessary for the convenience and well-being of the village.

Resolved that provision be made accordingly in the Budget for 1896-97.

6. *Allowance to the Hospital Assistant at Arsikere.*—Read para 6 of President's notes of inspection, dated 27th November 1895, of the Banavar Town, suggesting that the Hospital Assistant at Arsikere should visit Banavar twice a week and that he might be given an allowance of Rs. 10 a month for the same.

Resolution.—The Board after fully considering the question observed that Harnahalli and Banavar are large places and centres of tracts which require medical aid, which cannot be efficiently afforded from Arsikere, that the service of a second Hospital Assistant, an Assistant to the one at Arsikere, should be applied for and that he should spend half the time at Banavar and the other half at Harnahalli and that till this should be

secured, the present Hospital Assistant at Arsikere, should visit Banavar and Harnaballi once a week without prejudice to his work at Arsikere, and that for this purpose a special horse allowance of Rs. 15 per mensem be granted to him.

7. *Hosurpetta road.*—Read Executive Engineer's docket No. 1183, dated 17th ultimo, stating that funds are not available in the current year's Budget for repairing the Saklespur-Gonibide road between Hosur and Halasuligepetes.

Read also Mr. Brooke Mockett's letter, dated 6th December 1895, bringing to notice the state of disrepair of the same road.

Resolved that provision be made in the Budget for 1896-97 for maintaining the road and that Rs. 100, be placed at the disposal of the Executive Engineer for urgent repairs during the current year.

8. *Constructing a shed for the watchman of the Musafirkhana at Arsikere.*—The Board resolve that the construction of a shed for the watchman of the Musafirkhana at Arsikere, is necessary and that Rs. 150 required for this be met from the provision under the head "Repairing the 3rd Class Travellers' Bangalos and Musafirkhanas" in the Budget for 1896-97.

9. *Constructing a Dispensary with out-houses at Konanur.*—Read correspondence ending with Executive Engineer's docket No. 1120, dated 25th November 1895, regarding the contribution towards the cost of constructing a Dispensary with out-houses at Konanur.

Resolved that provision be made in the Budget for 1896-97 for the District Fund quota of the cost as resolved by the Board in Resolution X of their Proceedings, dated 9th May 1895.

10. *Opening the Saklespur-Gonibide road, viâ, Arehalli, Second Section.*—Read letter dated 3rd instant, from Mr. J. A. Harris, Honorary Secretary, South Mysore Planters' Association, urging the necessity of opening the Saklespur-Gonibide road *viâ* Arehalli, second section.

The Executive Engineer informed the Board that the opening of this portion of the road before the completion of the first section for which Rs. 12,000 has been provided in the Budget for 1896-97, would be of little avail and that, besides Rs. 3,000 budgetted for, another sum of Rs. 5,000 be granted for expenditure on the first section of the road during the current year.

Resolution—Resolved that provision be made for finally tracing out the line referred to by Mr. Harris, that after completing the first section for which provision has been made, the second section be taken up and that the additional grant referred to by the Executive Engineer be applied for.

11. *Channarayapatna-Sravanabelagola road on the Janivara Tank Bund.*—The President informed the Board that the Channarayapatna-Sravanabelagola road on the Janivara tank bund is not broad enough and that it is therefore necessary to make some arrangement to prevent danger to traffic passing over it.

Resolved that the tank side of the road be protected with railing of stone up rights and old iron rails and for this purpose a sum of Rs. 500, be provided in the statement of original works to be executed by Public Works Department for 1896-97 under "Reserve for minor works."

12. *Constructing Musafirkhanas in the District.*—Read the following :—

(2) Board's Resolution XVII, dated 9th February 1895.

(3) Do do dated 20th November 1895.

(1) Suledevarahalli, Hassan-Chikmagalur road.

(2) Kanakatte, Banavar-Sira road, and

Resolution.—Resolved that Rs. 1,000 be provided for this purpose in the statement of repairs to be executed by the Public Works Department under the head "Reserve for minor works" during 1896-97 and that the Executive Engineer be requested to do the needful.

15. *Budget Estimates.*—The usual Budget estimates for 1896-97, were placed before the Board and explained as follows :—

(1) Receipts.—Seventy-six per cent of one anna cess on Land Revenue creditable to District Funds—The estimate under this head is based upon the actuals for 1894-95.

(2) Cattle fines and sales and ferry collections.—The estimates under these heads are also based upon the collections of 1894-95.

It may be observed that the estimates are less than the actuals of 1894-95, the items being fluctuating ones.

(3) Fees from 3rd Class Travellers' Bangalos.—Only a sum of Rs. 100, has been entered under this head against Rs. 145-6-4 the actuals of 1894-95, as the collections of the past six months show a decrease.

(4) Private contributions.—The amount estimated under this head is the contribution promised by European and Native Coffee Planters towards the opening of the Saklespur-Gonibido road :—

(5) Refund of expenditure on the Belur Bridge.—A sum of Rs. 47,000 has been entered under this head as the estimate for 1896-97 for reasons given by the Board in Resolution III *supra.*

Resolution.—The estimates be passed.

16. *Charges.*—The Budget estimates of Public Works prepared by the Executive Engineer were then laid before the Committee (*vide* Form B., Parts I and II attached).

Original Works.—Under this head provision has been made for seven works of which six are those in progress, and an estimate for the seventh or the last work, has been submitted for sanction, as resolved by the Board in Resolution XV of their Proceedings, dated 19th August last. The sum of Rs. 3,000 entered by the Executive Engineer under "Reserve for minor works," is raised to Rs. 3,500 *vide,* Resolution XI *supra.* Thus the total grant required for 1896-97, under this head is Rs. 25,500.

Resolution.—Passed.

17. Repairs, communication.—

Read correspondence ending with Executive Engineer's letter No. [illegible], dated 9th instant, stating that, on account of the expansion of coffee industry the enhanced wages of labor and the great activity in trade in Malnad tracts, it is quite necessary to raise the mileage allotments of the marginally noted Malnad roads, which stand in great need of improvement owing to heavy traffic passing over them, at an increased cost of Rs. 2,890 and that he could not provide for the very important work of constructing a bridge across the Addahalla stream and the improvement of the Bisleghat road for want of funds.

1. Belur-Mudgere road
2. Anemahal-Mudgere road.
3. Kattya-Hallibyalu road
4. Arkalgud-Kodlipet road.
5. Ramnathpur-Frazerpet road.
6. Bhartavalli-Alur loop road.
7. Palya-Belagode road.
8. Banavasi-Kerodi road.
9. Bage-Belur road.
10. Aiyahalli-Yeslurpet road.
11. Hullahalli loop road.

Read also the following :—

(1) Para 26 of Government Proceedings No. 17529-33—L F. 203-92, dated 24th April 1893, informing that the question of constructing Addahalla bridge at the cost of Provincial Funds will be considered in the Public Works Department in reply to Board's Resolution, dated 3rd January 1893.

(2) Resolution III of the Proceedings of the Board, dated 31st January 1894, that the work of constructing an iron girder bridge and the improvement of the Bisleghat road could not be undertaken out of District Fund assets and that the Government be urged to sanction these two works from Provincial Funds.

(3) This office No. 25 Camp, dated 20th December 1895, addressed to the Chief Engineer and its enclosure being a representation by the President of the Vuppinangadi Taluk Board, South Canara District, as regards the necessity of constructing *pukka* bridge across the Addahalla.

Resolution.—The Board concurring with the Executive Engineer as to the necessity of raising mileage allotment of the above roads at an increased cost of Rs. 2,890, resolved to pass the same and other usual charges entered in the statement but observed as follows:—

The general principle that should regulate expenditure is that the District Fund realized in the Taluk should be spent in it, *vide* Rule 7 of Appendix to subsidiary Rules framed under Notification No. 110, dated 4th July 1874. While the Board is willing to exceed this limit to a reasonable extent, it would be unfair to saddle it with charges for maintaining roads, which are of provincial importance such as the Bisleghat road. A bridge across the Addahalla on the Manjarabad-Subramanya road is a great need. Government should therefore be respectfully asked that this work and the improvement and maintenance of the Bisleghat road (Manjarabad-Subramanya road) be undertaken from Provincial Funds and the District Funds relieved of the charge.

Rupees 5,745 provided under the head "Reserve for minor works" by the Executive Engineer is raised to Rs. 6,745 (*vide*, Resolution XIV *supra*).

18. The provisions under the head "Tools and plant" and "Establishment" were also accepted by the Board.

19. *Public Works to be executed by the Revenue Department.*—The appended statement (Form C) of works budgetted to be undertaken by the Revenue Department was placed before the Board and explained as follows :—

1. *Original Works.*—The first two are the incomplete works of last year and the third and fourth are those already approved by the Board (*vide*, Resolutions V and X *supra*).

A sum of Rs. 2,000, has been provided for sinking wells in Arsikere and Channarayapatna Taluks, as those parts are dry and are greatly in need of drinking water wells. Detailed estimates will be submitted and sanction obtained.

As the back yard of the Rangacharlu Memorial Chattram at Arsikere is at present very untidy and cannot without a compound wall will be prevented from being turned a public latrine, Rs. 1,200 has been provided for constructing the same under "Reserve," Rs. 500 has been entered for unforeseen expenses.

In addition to the above the following works were proposed :—

	Rs.	
1. Improving the pond at Tirupati	1,000.	Proposed by the Amildar of Arsikere.
2. Constructing a bathing ghat at Doddamaggo ..	400.	By the Amildar of Arkalgud.
3. Sinking a well at Chikkanahalli, Belur Taluk ..	500.	By Mr. Tammaiya.
4. Sinking a well near the Musafirkhana at Banavar under construction	500.	By Mr. Venkatesaiya.

Resolution.—The Board recognizing the necessity for the above works passed the same.

(2) *Repairs.*—The President informed the Board that Rs. 4,000 has been provided for special improvements of well recognized cart-tracks for 1896-97, as the construction of tunnels on Channarayapatna-Bagur and Salgame-Halebide roads, the improvement of which has already been approved by the Board, could not be undertaken with the usual grant of Rs. 2,000, without prejudice to similar works in other Taluks

As some of the Musafirkhanas are very badly in need of repairs and as Rs. 1,000 will not suffice for repairing these and the 3rd Class Travellers' Bangalos in the District, Rs. 1,500, has been provided for 1896-97 for repairing these buildings.

Resolution.—Passed.

(3) *Establishment.*—As the Amildars and other Non-official Members present say that provision be made for establishment charges as already resolved by the Board, (*vide* Resolution XII of their Proceedings, dated 19th August last) a sum of Rs. 1,900 has been provided on this account at 10 per cent.

Resolution.—Passed.

20. *Civil Charges.*—The Budget of civil charges was next placed before the Board and explained as below :—

The provision made for 1896-97 amounts to Rs. 24,493 against Rs. 18,994, the sanctioned estimate for 1895-96, as shown below :—

Details.	*Estimate for 1895-96.*	*Estimate for 1896-97.*
1. Office Establishment	616	738
2. Medical Scholarships	340	340
3. Hospitals and Dispensaries	4,021	4,515
4. Midwives	1,395	1,442
5. Sweepers for third class Travellers' Bangalos and Musafirkhanas	1,080	1,405
6. Conservancy and Sanitary charges	4,120	5,120
7. Vaccination	95	95
8. Refunds	157	157
9. Contribution	170	3,556
10. Miscellaneous	7,000	7,125
Total....	18,994	24,493

1. *Office Establishment.*—The excess over the grant of the year 1895-96 is on account of the following :—

Rupees 60 has been provided for the travelling allowance of the District Office Clerk which had been omitted to be entered in the Budget for 1895-96. A provision of Rs. 50 has been made for purchase of furniture required for the use of the Local Fund Deputy Clerk, and for purchasing a box for the preservation of records.

Rupees 12 has been entered for contingencies of this branch of the District office.

2. *Medical Scholarships.*—The sanctioned provision for 1895-96 is repeated.

3. *Hospitals and Dispensaries.*—Rupees 625 has been entered under Arsikere Dispensary against Rs. 483, the estimate for 1895-96 (*vide* Resolution VI *supra*). Provision has been made for establishing a Dispensary at Arehalli in the Belur Taluk, as resolved by the Board in Resolution XIII of their Proceedings, dated 19th August 1895, and as reported to Government in this office No. 405, dated 2nd November last.

Only Rs. 321 is entered under "Konanur Dispensary" against Rs. 415, the sanctioned estimate for 1895-96, agreeably to Resolution X of the Board's Proceedings, dated 9th May 1895.

4. *Midwives.*—As all the Taluks are provided with Midwives, as already informed to the Board and as reported to Government in this office No. 547, dated 19th ultimo, the estimate is in excess of that sanctioned for 1895-96. It is proposed to raise the pay of the Midwife at Alur to Rs. 18, the place being semi-Malnad.

5. *Sweepers for third Class Travellers' Bangalos and Musafirkhanas.*—Provision has been made for purchasing vessels and lamps to Musafirkhanas. The necessity for the retention of the Kotval at Gandasi having been reported to Government in this office No. 954, dated 11th June 1895, (read to the Board) Rs. 96 is provided for his pay. Hence the excess over the sanctioned estimate for 1895-96.

6. *Conservancy and Sanitary Charges.*—As there are good many villages which stand in need of sanitary improvements, and as the usual grant will not be sufficient to meet the requirement, the provision under this head is more by Rs. 1,000 than that of 1895-96, the main object of District Funds being the bettering of rural sanitation. 7 and 8 repeated as usual.

9. *Contribution.*—1, 2, 3 and 6 have already been approved by the Board. The construction of in-patients' wards at Saklespur and Channarayapatna being necessary, provision has been made for the same.

10. *Miscellaneous.*—Rupees 525 has been provided under "Purchase of Amrut Mahal Bulls," as the amount is required for adjustment of the cost of eleven bulls recently purchased from the Amrut Mahal department. No provision has been made for feeding the same as it is proposed to entrust these bulls to respectable raiyats, as per instructions in para 5 of Government Proceedings No. 6999-7008, Circular 123, dated 16th September 1891, Rs. 1,500 has been provided under the head "Commission to Pound-keepers" against Rs. 1,200 sanctioned for 1895-96, as the latter amount will not be sufficient considering the income. The other charges are usual ones.

Resolution.—Passed.

21. Mr. Viraraghavalu Naidu, Amildar of Arsikere, informed the Board that it is proposed to construct a Musafirkhana at Tirupati, which is much frequented by pilgrims, at a cost of Rs. six to seven thousand, by raising subscriptions and that a contribution of Rs. 2,000 may be given from the District Funds.

Resolution.—The proposition be defferred as the question may be considered with reference to the amount of subscription raised and the description of building to be erected.

22. The following papers were read for the information of the Board.

(1) Docket No. 483—L. F., dated 11th September 1895, from the Comptroller, intimating that the balance at the credit of the District Funds on 1st July 1895, was Rs. 86,729-15-4.

(2) Government Proceedings No. 6514-5—L. F. 61-95, dated 5th December 1895, sanctioning the incomplete works of previous years undertaken from Local Funds General.

(3) Government Proceedings No. 7128-36—L. F. 78-94, dated 20th December 1895, observing that Deputy Commissioners should submit all new proposals relating to Medical Institutions in charge of the Senior Surgeon through that officer.

(4) Government Proceedings No. 7189-97—L. F. 71-94, dated 21st December 1895, directing the purchase of a few lamps for the use of travellers halting during nights in each Musafirkhana.

Resolution.—Recorded.

EXCISE DEPARTMENT.

Notice No. 3689-48, *dated the* 18*th March* 1896.

SALE OF COUNTRY BEER TAVERNS IN THE CITY OF BANGALORE FOR 1896-97.

1. Notice is hereby given that the exclusive privilege of selling Country Beer or Porter in each of the three taverns at the Bangalore City specified in the appended schedule for the twelve months beginning with 1st July 1896 and ending with 30th June 1897, will be put up to public auction on the 16th April 1896 in the District office, by the Deputy Commissioner, Bangalore District, or other officer authorized by him.

2. Each bidder at the auction will deposit a sum of Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each tavern will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each tavern shall at once deposit a sum equal to $\frac{3}{8}$ths of a month's rent for that tavern. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the tavern will at once be put up again on the above conditions, and he will be debarred from bidding again for the same, or for any other tavern.

4. The persons to whom the taverns have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two month's rent of each tavern knocked down to them; and shall take out licenses and execute a counterpart engagement, in the appended form, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the tavern will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above, shall be subject to the following conditions, namely :—

(1) The privilege conferred by the license extends only to the sale of Country Beer or Porter brewed by Messrs. Leishman & Co., at Nilgiris, or by Messrs. Mealkin & Co., Kirkee.

(2) The amount for which the privilege has been purchased shall be payable into the Bangalore Taluk Treasury in equal monthly instalments commencing from July 1896; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the chellan prescribed for the purpose. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the lease. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(3) The licensee shall further pay a duty of two annas for every gallon of Country Beer or Porter purchased by him.

(4) The consignment of Country Beer or Porter purchased by the licensee shall be sent direct from the Brewery to the Amildar, Bangalore Taluk. The letter of advice covering the consignment, shall be in duplicate, the original being sent to the Amildar of the Bangalore Taluk, and the duplicate to the Excise Commissioner. On the duty at the above mentioned rate being paid by the licensee on the prescribed chellan, the Amildar shall allow the licensee to remove the consignment to his tavern upon a pass signed by the Amildar or other officer authorized by him on this behalf.

(5) The licensee of every tavern at the Bangalore City shall pay a registration fee under the Municipal Regulation, at the rate of Rs. 180 per annum, in advance for the period of the license for his tavern.

(6) The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Beer or Porter, which forms shall be purchased from local Excise Officers.

(7) The licensee shall be bound to take over any Beer or Porter which may remain as stock in hand belonging to the out-going licensee on the 1st July 1896 in the existing tavern, paying to the latter such compensation for the same as may be fixed by the Excise Commissioner.

(8) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(9) The remaining terms and conditions shall be as set forth in the appended license.

7. In case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his tavern or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his tavern on 1st July 1896, shall be made good by him. When a lease is cancelled, the rent for the whole period of the lease shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or rules in force.

FINANCIAL DEPARTMENT.

Circular No. 447-54—*R. E.* 7, *dated* 10*th April* 1896.

To the Deputy Commissioners, Treasury Department, of all Districts.

Comptroller regrets to observe that notwithstanding repeated instructions from this office, the Excise Chalans are still prepared and submitted in a very unsatisfactory manner and he has therefore the honor to issue the following further instructions in the matter, and to request that the Deputy Commissioners in the Treasury Department will be so good as to issue stringent orders to Taluk Amildars to conform strictly to the said instructions in future :—

(i) The serial Nos. and names of farms and farmers given in the chalans should exactly correspond with those given in the Sales list forwarded to this office by the Excise Commissioner.

(ii) A separate chalan should always be used for each farm and a consolidated chalan should never be sent to this office, on the understanding that the same farmer is the purchaser of the other farms mentioned in the consolidated chalan.

(iii) The name of the month and the year for which the amount has been collected should, on no account, be omitted to be shown in the chalan.

(iv) In the space provided for entry of the date of credit at the bottom of the chalan, the credit date should be clearly entered by the Treasury alone and not by the farmers.

(v) Any corrections made in the chalans should necessarily be attested by the Treasury Officer.

(vi) Care should be taken so that the amounts entered in words and in figures do not disagree.

2. Chalans not prepared in accordance with this and other circular instructions already issued from this office will be returned.

FINANCIAL DEPARTMENT.

L. F. Circular No. 25, *dated* 14*th April* 1896.

To All Deputy Commissioners, Treasury Department and Presidents of Municipalities.

The attention of Deputy Commissioners, Treasury Department, is invited to Article 8 (*a*) and (*b*) Chapter I, Civil Account Code, in which it is distinctly laid down that cheques drawn by a Municipality and cheques and receipts for all sums exceeding Rs. 20, signed by a Government Officer as Chairman of a Municipality are chargeable with stamp duty.

Such cheques and receipts if not duly stamped should be refused payment.

The stamp duty which the Municipal authorities levy on payments made by them to their establishments, contractors, &c., refers to quite a different set of transactions—transactions between themselves as the employees and principals on the one hand and their servants, and agents and contractors on the other hand. Stamps thus levied by them should be attached to the vouchers that accompany the Municipal accounts they render.

For withdrawals from Treasuries in which Municipal Funds are deposited as in Banks, the Treasury authorities should demand and obtain duly stamped cheques or receipts in the same manner as from any private parties and forward them with the Treasury accounts as vouchers in support of their payments.

ABSENT.

Official Member.

1 The Civil Surgeon of Mysore.

1. Read docket No. 111 of the 30th August 1895, from the Deputy Commissioner of the Mysore District with Subject No. 564 of the Representative Assembly 1894, *anent*—(1) the extension of Maddur-Koppa road to Nagamangala and (2) widening the Bridge over the Kadamba River near Maddur.

With regard to the first question, the Board resolved that it is not advisable to spend any money on it. For there is very little traffic going on at present, and it is not expected that it would increase even if the road is opened. There are already cart-tracks all over for the convenience of the inhabitants of that part. Further, the Board is not in a condition to spare funds on such works.

As regards the second question Mr. Inman, the Executive Engineer, explained that the bridge can be widened by building piers upon projecting down stream cut waters and throwing independent arches close alongside the existing arches connecting them after settlement by means of stone slabs. Thus the cart traffic way will be brought to the width of about 17 feet. And he also said that the work may cost about fifty thousand rupees. The expenditure required for the work, though an useful one, being too heavy, the Board expressed its inability to undertake it and was of opinion that reference may be made to Government to have the work carried out from Provincial Funds.

2. Read docket No. 233 of the 27th ultimo, from the Executive Engineer of French Rocks Division, *anent* repairing the damaged portion of the Yediyur-Tiptur road in the Nagamangala Taluk.

Approved that the work be carried out by the re-appropriation of District Fund grants of the current year, as no separate fund is available for it.

3. Read docket No. 965 of the 9th ultimo, from the Chief Engineer to the address of the Executive Engineer, about making good the damage caused by heavy rains on the French Rocks Station Nelligere road.

Resolved.—that for want of funds, the work be held over till next year.

4. Read Government Proceedings No. 2101-12—L. F. 379-92 of the 12th August 1895, on the subject of entrusting the supervision of small public works to Non-official members. The President explained to the non-official members the opinion and object of the Chief Engineer and Government on the subject in hand. The members after discussion did not come to a fair conclusion. Three of them, Messrs. Krishnappa, Garudachar and Ramanna declined to take up the responsibility, as they said, on various grounds. Mr. Mallappa of Malvalli said that he would superintend works in the whole Taluk, and Mr. Govindappaiengar, the Inamdar member, agreed to superintend works within a distance of three miles from his residence.

Resolved.—that a trial may be given in the Taluks of Malvalli and Nagamangala.

5. Read paragraph 3 (*b*) of Government Proceedings No. 10416-8—L. F. 147-94 of the 11th March 1896, disallowing the pay of a Native Pandit provided in the current year's Supplemental District Fund Budget.

Resolved.—that for reasons stated therein, Government be requested through a separate communication to sanction the amount.

6. Read statements of Receipts and Expenditure up to end of February 1896.

In the statement of expenditure from Department Public Works there was an item of Rs. 282-6-8 shown as expended without any appropriation sanctioned for the same. The Executive Engineer said that that sum was spent for the repairs of the Palahalli-Kalasavadi road on the occasion of the visit of His Excellency the Viceroy to Seringapatam. The work, being an urgent one was carried out and the necessary estimate or bill will be made out shortly and sanction obtained. He stated that the road is a District Fund road, and as such, the amount spent on it should be charged to District Funds. The President remarked that there is no reason why the amount in question should be paid from District Funds even if the road is maintained by it. The work was carried out in connection with the visit of His Excellency the Viceroy, and apart from it, there seemed to have existed no necessity for special repairs.

Resolved.—for the above reason, that no sum be paid from District Funds for the work in question.

P. PANCHANATHA RAO, *President.*

I. Read the Budget estimates of receipts for the year 1896-97.

(1) The estimates for 1896-97 under one anna cess on Land Revenue has been calculated upon the actuals for the year 1894-95, the details of which are given in the enclosure A.

(2) The receipts under all other items are based upon the sanctioned estimates for 1895-96.

(3) Thus the total estimated receipts for the year 1896-97 under all heads amount to Rs. 40,430 against Rs. 40,255 estimated for 1895-96, and as against the actuals of Rs. 42,706 for 1894-95.

(4) As per Proceedings of Government No. 5195-7—L. F. 151-94, dated 2nd November 1895, the opening balance at the credit of the Board is estimated to be Rs. 7,849. But this balance will have to be reduced by Rs. 1,062 which is proposed to be appropriated during the current year for re-constructing a bridge in Chitaldrug-Challakere road that has been washed away by floods (*vide* Deputy Commissioner's No. 364-114, dated 8th November 1895). The amount available for expenditure during 1896-97 including the receipts for the year would therefore be Rs. (40,430+7,849—1,062)=47,217.

Resolved that the same be passed.

II. Read the following estimate of expenditure proposed by the Executive Engineer on account of Public Works both "Original" and "Repairs" to be executed by Public Works Department during 1896-97.

ORIGINAL.

(1) An estimate amounting to Rs. 1,580, is sanctioned for the current year on account of effecting certain special improvement in the Vizapur-Ujjani road and this estimate will be fully worked out and closed during this year. Special work in certain other places is still quite necessary to make this road easily trafficable, which cannot be satisfactorily executed out of the annual maintenance grant. Hence a provision of Rs. 1,000 for the year 1896-97.

(2) For the same reason a sum of Rs. 500 has been provided for 1896-97 on account of the special improvements to Hangal-Royadurga road.

(3) Construction of tunnels on Holalkere-Huliyar road in several places is absolutely necessary. But owing to the paucity of funds this cannot be taken on hand and completed all at once. Yet a small provision has to be made year after year on this account. Two tunnels at an estimated cost of Rs. 1,678 are now under progress, and a sum of Rs. 500 has been provided for another tunnel to be taken up next year.

(4) The village of Turvanur in the Chitaldrug Taluk is a large and populous one, but without supply of water, at a convenient distance for men and cattle. A provision of Rs. 2,000 has therefore been made for the year 1896-97 towards the construction of a Honda in this village. An estimate for the work is under preparation by the Public Works Department.

(5) The early completion of the road from Anaji to Davangere is pressed upon by the Board, yet no greater sum than Rs. 3,000 could be spared on this account for the year 1896-97.

REPAIRS.

(1) Chitaldrug-Challakere road which was transferred to the Board in lieu of Chitaldrug-Benkipur road taken over to Provincial Funds, is equally important and the traffic on it is in no way less than on the other road. It cannot therefore be satisfactorily kept up with the present mileage allotment of Rs. 100, consequently the rate has to be raised to Rs. 120 a mile.

(2) The 3rd Class Travellers' Bangalo at Rampur is badly in want of repairs. Hence a provision of Rs. 828 has been made on this account.

(3) The total amount debitable to District Funds during 1896-97 under this head, comes to Rs. 14,108.

ESTABLISHMENT.

The charges under "Establishment" calculated at 17½ per cent on the outlay as per Proceedings of Government No. 4449-58—L. F. 210-92, dated 23rd October 1895, comes to Rs. 3,692.

TOOLS AND PLANT.

A small provision of Rs. 100 has been made under "Tools and Plant." Thus the total amount of expenditure during 1896-97 on account of works to be executed by D. P. W. aggregates to Rs. 24,900.

Resolved that this be passed.

III. Read the estimate of Civil Charges debitable to District Funds during 1896-97 with the following deviations :—

(1) A fixed monthly contingent allotment of Rs. 3 to the Local Fund Department of Deputy Commissioner's office has been provided in order to meet the cost of cart hire and trainage, &c., for forms that are received from the Government Press, and for the purchase of the articles of ordinary contingent nature.

(2) (*a*) The location of the newly opened Dispensary at Malebennur of Haribar Sub-Taluk in Mr. Honnappa Naidu's Chattram was in view and therefore no provision was made for the current year towards the house-rent for this Dispensary. But this building having been found not suited for the location of a Dispensary, a house has been procured on a monthly rent of Rs. 5 and a sum of Rs. $60 \times 2 \div 3 = 40$ has been provided on this account.

(*b*) A sum of Rs. 50 has been provided on account of cart hire and other expenditure required in order to send patients from the Local Fund Dispensaries in Taluks to the Civil Hospital at Chitaldrug for treatment whenever necessary. This provision was found necessary as there had occurred an instance during the current year which required expenditure to be incurred on this account, and as the Assistant Surgeon had expressed his opinion that the charges of this nature cannot be met from the contingent allotments of the Dispensaries on the ground of there being only just enough for the purchase of Hospital necessaries and Bazaar medicines.

(3) Provision was made for 1895-96 towards the pay and allowance of only five midwives that were in service already. The full complement required for the District will soon be available. Consequently the excess provision under "Midwives."

(4) (*a*) The Musafirkhana at Ramagiri, Holalkere Taluk, is hardly used by travellers. It is therefore thought better that the sweeper of this building be transferred to Bunjagondanahalli of the same Taluk where a rest-house has been newly constructed out of Local Funds General, for the conservancy of which the appointment of a sweeper or care-taker is considered necessary. It is also proposed that a care-taker on a monthly salary of Rs. 3 be appointed to look after the rest-house newly constructed at Amakundi of the Molakalmuru Taluk out of District Funds. A sweeper on Rs. 4 per month having been sanctioned for the Musafirkhana at Hosdurga, due provision has been made in the Budget for 1896-97 on this account. The pay of the care-takers of the rest-houses at Kallahalli of the Chitaldrug Taluk, Kottige of the Holalkere Taluk and Tammenahalli of the Molakalmuru Taluk and of the Musafirkhana at Vizapur of the Chitaldrug Taluk being very small, the Board recommend the same being raised from Rs. 2 to Rs. 3 each.

(*b*) A lump sum of Rs. 50 has been provided in order to meet the cost of supplying iron water pots, baskets, ropes and garden implements to Bangalos and Musafirkhanas and also of petty repairs to doors and windows of these buildings. These explain the excess provision under "Sweepers for Travellers' Bangalos and Musafirkhanas, &c."

(5) Owing to the inadequacy of funds no greater sum than Rs. 1,432 could be provided under "Conservancy and Sanitary charges" to meet the pay of the conservancy sweepers as well as the cost of works to improve the village sanitation.

(6) The other items call for no special remarks.

(7) The total amount of expenditure under civil charges amounts to Rs. 12,117.

Resolved that the same be approved.

IV. Read the lists of works submitted by the Amildars.

Resolved that a lump sum of only Rs. 3,000 be provided for works both "Original" and "Repairs" to be executed by the Revenue Department during the year 1896-97. Such a small provision had to be made owing to the insufficiency of funds. Detailed estimates will be submitted for the sanction of Government in order of urgency of the several works.

Resolved also that a sum of Rs. 200 be provided towards the District Fund portion of the pay of the two Mestris who are in service.

V. The total amount of expenditure proposed under all heads put together will be Rs. 40,217 ving a balance of Rs. 7,000 at the close of the year 1896-97 as shown hereunder :—

VI. Resolved that the above provisions which are only just enough to meet charges which are bsolutely necessary be passed.

VII. Read letter No. 367—115, dated 12th November last, addressed by the Deputy Commissioner to the General Secretary to the Government of Mysore, requesting to re-consider the order of Government refusing to sanction any fresh grants from Local Funds General for the current year, in so far as this District is concerned.

Resolved that the Government be addressed again on the subject as several sanitary improvements contemplated are now at a stand still owing to paucity of funds.

I. The undermentioned papers were read and recorded.

(1) Proceedings of the last meeting, dated 30th October 1895.

(2) Government Proceedings No. 6069-70—L. F. 311-92, dated 18th November 1895, sanctioning the retention of Mr. Ramalingappa Naikaru as a member of the Board for a further period of five years and the appointment of Messrs. Ramegauda, Venkatramanaiya and Vittal Rao of the Kolar, Malur and Mulbagal Taluks respectively, as members of the Local Fund Board of this District in room of the time expired members *viz.*, Messrs. Ramegauda, Sonnegauda and Chenchureddi.

(3) Government Proceedings No. 7189-97—L. F. 71-94, dated 21st December 1895, observing that a separate provision for lighting Musafirkhanas would be a waste of money and directing the purchase of a few cheap lamps to be kept in the possession of the caretaker and lent to travellers halting during nights in each Musafirkhana.

(4) Government Proceedings No. 4449-58—L. F. 210-92, dated 23rd October 1895, directing the submission of the District Fund Budget not later than the 31st January of every year.

(5) Read Government Proceedings No. 8461-4—L. F. 144-94, dated 23rd January 1896 sanctioning the supplemental Budget of the District Funds for the year 1895-96.

II. Read Government Proceedings No. 5156-61—L. F. 379-92, dated 2nd November 1895, requesting the Deputy Commissioner of Bangalore to convene a meeting and induce the members of Local Fund and Municipal Boards in the District to take the responsibility of supervising small works.

The Non-Official members of the Board unanimously resolve that, in their opinion it would be impracticable for them to supervise the works unless they were situated in close proximity to their residences and further that there are no members to represent each Taluk and supervision of such works at long distances would prove prejudicial to their avocation.

III. Read the Executive Engineer's docket No. 28 dated 28th January 1896, forwarding an estimate amounting to Rs. 67 for repairing the out-houses of the Sidlaghatta Local Fund Dispensary and requesting that the usual contribution may be sanctioned by the Board from the District Funds.

Resolved that one-third of the cost of repair of the building in question be met out of Rs. 2,00 provided in the current year's District Fund Budget under the head "IX. Contributio

IV. The Executive Engineer brought to the notice of the Board that a revised estimate amounting to Rs. 27,057 for bridging Peresandra-Goribidnur road was sanctioned and that, when the work was executed, an excess of Rs. 713 over the sanctioned estimate was actually incurred owing to the rate for cut stone works having had to be increased from Re. 1 to Rs. 1-12-0 per cubic foot. The former rate was entered in the revised estimate through an oversight instead of the latter one which was the rate sanctioned in the original estimate for this item of work.

The Executive Engineer therefore proposed that the excess over the estimate may kindly be passed by the Board.

Resolved that the excess over the estimate be passed by the Board and that Government be requested to sanction the same.

V. The Board resolved to provide a lump sum allotment of Rs. 2,500 in the ensuing year's District Fund Budget with a view to remedy the insanitary condition of some of the large and populous villages in the District by the employment of temporary sweepers and by the adoption of such other methods as are calculated to improve their sanitary condition.

VI. The growth of the prickly pear in some of the out-lying villages in this District has extended so as to encroach upon village sites and pathways besides affording shelter to venomous reptiles and the Board resolves that with a view to eradicating it as much as possible from the neighbourhood of villages a somewhat liberal provision of Rs. 6,000 be made in the District Fund Budget for 1896-97.

VII. Resolved that the accompanying Budget estimates of receipts and expenditure consisting of the undermentioned major items amounting in the aggregate to Rs. 77,500 and Rs. 1,11,68 respectively be approved and passed by the Board.

Mr. Somasundaram Mudaliar, enquires whether the sum of Rs. 300—0—0 paid as compensation for a garden in the Fort trench, was in addition to any land granted for the same and whether this was brought before the Board.

The President replied that the Commissioner may bring the matter forward as a proposition under the Regulation.

Resolution.—The accounts be passed.

2. Memo No. 297, dated the 10th February 1896, from the Municipal Executive Engineer, furnishing particulars of charges incurred in repairing the Cenotaph and short-hand notes of the meeting dated 27th November 1894, as required in Resolution No. I, dated 28th January 1896.

Resolution.—Mr. Cameron proposes that in addition to the works in the Budget for 1896-97, the following be undertaken :—

(1) The widening of the Mission Road.
(2) A new road from the Monkey Tope to the Lal-Bagh, and
(3) The continuation of the main sewer across the Lal-Bagh road.

Mr. Leonard explains that these works were discussed by Budget Sub-Committee, but owing to want of funds, they and others equally wanted cannot be taken up.

Mr. Cameron remarks that the Municipal Garden was once a credit to the Board but it is not so now. He proposes that the provisions for the same should be increased to Rs. 1,500.

Resolved.—That as the Government requires a clear balance of Rs. 20,000 to be reserved, there is only an amount of Rs. 173—0—0 available which may be appropriated for giving two extra gardeners.

Also that Mr. Cameron be requested to supervise the garden as often as may be convenient to him, and to take steps to improve the garden and keep as tidy as before.

Mr. Cameron proposes that the widening of the Mission Road should be taken up by some means or other. It only requires Rs. 1,500—0—0 and the Board may ask Public Works Department to undertake the work.

It was remarked that these works cannot be taken up without reducing the reserve.

Mr. Hafizulla Khan proposes that dogs should be killed all the year round and that the pay of sweepers and overseers be increased. Resolved that the matter should be separately brought before the Board.

With these observations, the draft Budget for 1896-97 was passed.

K. SRINIVASA ROW, for *President.*

FINANCIAL DEPARTMENT.

L. F. Circular No. 25, *dated* 14*th April* 1896.

To All Deputy Commissioners, Treasury Department, and Presidents of Municipalities.

The attention of Deputy Commissioners, Treasury Department, is invited to Article 8 (*a*) and (*b*) Chapter I, Civil Account Code, in which it is distinctly laid down that cheques drawn by a Municipality and cheques and receipts for all sums exceeding Rs. 20, signed by a Government Officer as Chairman of a Municipality are chargeable with stamp duty.

Such cheques and receipts if not duly stamped should be refused payment.

The stamp duty which the Municipal authorities levy on payments made by them to their establishments, contractors, &c., refers to quite a different set of transactions—transactions between themselves as the employees and principals on the one hand and their servants, and agents and contractors on the other hand. Stamps thus levied by them should be attached to the vouchers that accompany the Municipal accounts they render.

For withdrawals from Treasuries in which Municipal Funds are deposited as in Banks, the Treasury authorities should demand and obtain duly stamped cheques or receipts in the same manner as from any private parties and forward them with the Treasury accounts as vouchers in support of their payments.

IN THE CHIEF COURT OF MYSORE.

Civil Side.

Rule of Practice No. 87, *dated* 21*st April* 1896.

The Chief Court, with the approval of the Government of Mysore, has issued the following instructions for the guidance of all Subordinate Courts in connection with the payment into Courts of compensation money for deposit under Section 31 (2) and for the investment of such deposits under Sections 32 and 33 of the Land Acquisition Regulation VII of 1894.

1. In cases where persons interested do not consent to receive the compensation awarded by the Deputy Commissioner, or where there is no person competent to alienate the land, or where there is any dispute as to the title to receive the compensation or as to apportionment of it, the Deputy Commissioner is required to deposit the amount of compensation in the Court to which a reference under Section 18 of the Regulation would be submitted. Similarly, where the payee neglects to appear to receive payment of compensation awarded to him, within a reasonable time, the amount should be paid into the Court.

2. All such payments into Court will be made by Deputy Commissioners by means of cheques in favor of the presiding officer of the Court concerned.

3. The cheques will be accompanied by receipts in triplicate, in Form D, annexed, duly filled up. One copy should be retained by the Court for record, and the other two returned to the Deputy Commissioner duly signed. The cheques should be duly endorsed in favor of the Treasury Officer and sent with a *chalan*, prescribed for payment of suitors' money, to the Treasury for encashment by transfer credit to the head "Civil Courts' Deposits." All payments of the amounts deposited will be made under the rules for payment of "Civil Courts' Deposits."

4. Investments under Sections 32 and 33 of the Regulation should be arranged for in the case of purchase of Government securities in communication with the Comptroller; purchases of land should be effected under the Court's orders through the Deputy Commissioner of the District.

FINANCIAL DEPARTMENT.

L. F. Circular No. 25, *dated* 14*th April* 1896.

To All Deputy Commissioners, Treasury Department, and Presidents of Municipalities.

The attention of Deputy Commissioners, Treasury Department, is invited to Article 8 (*a*) and (*b*) Chapter I, Civil Account Code, in which it is distinctly laid down that cheques drawn by a Municipality and cheques and receipts for all sums exceeding Rs. 20, signed by a Government Officer as Chairman of a Municipality are chargeable with stamp duty.

Such cheques and receipts if not duly stamped should be refused payment.

The stamp duty which the Municipal authorities levy on payments made by them to their establishments, contractors, &c., refers to quite a different set of transactions—transactions between themselves as the employees and principals on the one hand and their servants, and agents and contractors on the other hand. Stamps thus levied by them should be attached to the vouchers that accompany the Municipal accounts they render.

For withdrawals from Treasuries in which Municipal Funds are deposited as in Banks, the Treasury authorities should demand and obtain duly stamped cheques or receipts in the same manner as from any private parties and forward them with the Treasury accounts as vouchers in support of their payments.

To—The Deputy Commissioners, Treasury Department of Districts, Circular No. 1846, *dated* 4*th May* 1896.

The Comptroller has the honor to request that they will be so good as to furnish to this office by the 10*th of August next* with the "Dead Accounts" and the return of Savings Bank Transactions for the year 1895-96 in the printed form recently prescribed.

Care should be taken to note in the statements the occupation of each Depositor and that no transfers of accounts are made from one District or Taluk to another during the *latter half of June* 1896. Accounts received by transfer from other Treasuries as well as all the Dead Accounts authorized to be re-opened should be brought into account within the close of the official year.

It is further requested that in the case of accounts transferred during 1895-96, the Treasury from and to which the account was transferred and the month of transfer should be distinctly noted in red ink in the remarks column of the statement.

E. R. SUBRAYEN, *Comptroller.*

3. Proceedings No. 5165-73—L. F. 61-95, dated 2nd November 1895, refusing the sanction of grants from Local Funds General for fresh works, and passing orders to the effect that sums required for incomplete works would be placed at the disposal of the Deputy Commissioner on the submission of a list of such incomplete works.

(Statement of works submitted to Government was read in detail.)

4. Proceedings No. 7189-97—L. F. 71-94, dated 21st December 1895, regarding the lighting of musafirkhanas.

B. The undermentioned statements were also read in detail with the results noted against each.

(*a*) Consolidated Budget estimates of receipts for the year 1886-97 under District Funds.
(*b*) Statement of Civil Charges.

Approved and passed for Rs. 61,661.

After some discussion as to the curtailment of certain items a sum of Rs. 19,399-0-0 was allotted as per list attached.

(*c*) Allotment of expenditure on road repairs to be executed by the Public Works Department.

Considering the heavy traffic on some of the roads the rates were slightly altered and a sum of Rs. 30,055 was set apart for the up-keep of the roads. This amount includes the establishment charges of Rs. 4,250 at 17½ per cent and Rs. 1,500 kept as reserve for urgent special repairs.

Proposed by Mr. G. R. Oliver that a grant-in-aid of Rs. 5,544 be asked for from Local Fund General for the European Planters' Ward to be built at Chikmagalur (for which Rs. 2,282-5-0 has been subscribed) in order to make up the amount of the original estimate.

This was unanimously carried.

Numerous proposals of the nature classed below were then made by the Amildars and by the Public Works Department.

1 Sinking wells, 2 Opening out roads, 3 Construction of chavadis and musafirkhanas, 4 Repairing drinking water kattes, &c. 5 Construction of tunnels.

Considering that the amount available for expenditure (on deducting the civil charges and the usual up-keep allowance of roads which are indispensable from the total income) was only Rs. 12,207, which is less than ¼ of the estimated income to be reserved as closing balance; the Board resolved that Government be requested to sanction the reduction of the reserve fund from Rs. 15,415 to the balance of Rs. 12,207 as the sums allotted are indispensable for the expenditure of the works now proposed, and further that a liberal grant of Rs. 40,000 be asked for from Local Funds General to cover the large number of works now left unprovided for owing to the paucity of funds.

...ceedings No. 12009-11—L. F. 404-92, dated 27th April 1896, classing the bangalo at ..., a 1st class travellers' bangalo from 1st July 1896.

5. Proceedings No. 11721-2—L. F. 379-92, dated 16th April 1896, sanctioning the appointment ... a Work Inspector for Tarikere taluk on Rs. 20 per mensem as a temporary measure.

B—The following were read before the Board and the results arrived at are noted against each.

1. Proceedings No. 10693-703—G. 319-92, dated 17th March 1896, requesting to report whether the charges incidental on the out-break of cholera may be debited partly to District Funds and partly to medical savings.

Resolved that the cost of medicines and disinfectants be debited to the Medical Department, and that of sheds, dieting and clothing cholera patients be met from District Funds.

2. Proceedings No. 10615-23—L. F. 103-95, dated 16th March 1895, sanctioning Rs. 35 to each of the musafirkhanas for the supply of vessels and leaving the distribution to the Board's discretion.

Resolved that the Amildars be directed to send in lists of utensils required for each, taking into consideration the importance of the place and the class of travellers who generally resort to them.

3. Proceedings No. 11379-86—61-95, dated 8th April 1896, requesting to state what special grant is needed from Local Funds General during 1896-97.

Lists of wells and roads requiring funds proposed by the Executive Engineer and several Amildars were approved and passed by the Board, and it was resolved that the same be submitted to Government as called for.

4. Proceedings Nos. 8081-3—L. F. 61-95 and 8084-6—L. F. 150-94, dated 18th January 1896, sanctioning Rs. 8,679 and Rs. 2,259 from Local Funds General and District Funds, respectively, for the execution of incomplete works during 1895-96. Also Proceedings No. 11424-6—L. F. 61-95, dated 9th April 1896, sanctioning a further grant of Rs. 7,112 from Local Funds General for the construction of four tunnels in the District.

Resolved that the Amildars be directed to inspect all the incomplete works in the Revenue Department at a very early date and submit a detailed report on each of them which should be read at the next meeting.

5. Proceedings No. 10647-55—1495, dated 16th March 1896, calling for suggestions in the matter of sanitary arrangements to be made in places where jatras or fairs last for more than three days.

The Board proposes that the following measures be adopted.

(i) Extra sweepers be employed during the festival for keeping the places clean.
(ii) Watchers be entertained on the occasions to see that no drinking water is polluted.
(iii) Temporary sheds and latrines be built according to the requirements.
(iv) An Hospital Assistant be deputed to the place of jatra.

6. Official Memo No. 10314-9—42-92, dated 20th March 1896, requesting to state in consultation with the Local Fund Board whether they would propose to raise the pay of dandies and other servants of 3rd class bangalos from Rs. 4 to 5.

Considering the wages of labor and dearness of provisions the Board unanimously is of opinion that the pay of servants in question may be raised from Rs. 4 to 5.

7 Letter, dated 23rd February 1896, from Dr. Sidney Smith, requesting to open a new cart road from Tarikere to Katlekhan Estate at the cost of Government.

Resolved that Dr. Smith be informed that the Board regrets their inability to entertain his proposal as the road in question would be of every small benefit to others. Besides the Board considers that at present they have as many roads as they can maintain.

8 Civil Surgeon's No. 855, dated 30th April 1896, requesting to increase the allowance of the Hospital Assistant at Sringeri from Rs. 15 to 20 and to raise the pay of toti from Rs. 6 to 7.

Sringeri being undoubtedly malnad it was resolved that the Civil Surgeon's proposal be recommended to Government for classing the same along with the surrounding dispensaries at Koppa, Hariharpur and Sollebile.

9. Executive Engineer's No. 44, dated 19th March 1896, regarding the extra amount claimed by Mr. Collins for having constructed the log tunnels on the Nemmar-Heggan road.

As the work done by Mr. Collins is undoubtedly for the good of the public it was resolved that Government sanction be obtained for paying the extra sum of Rs. 125, (now claimed by him) from Local Funds General.

10. Sringeri Jaghir Amildar's report to the effect that the Matt authorities are averse to the levy of fees in the 3rd class travellers' bangalo at Sringeri, but claim the services of a watcher for the bangalo at the cost of District Funds.

As the Matt authorities object to the collection of fees in the 3rd class bangalo at Sringeri as is being done according to Rules in other similar buildings, it was resolved that the Matt be informed that the Board regrets that they are unable to pay the watcher, as the funds for the payment of the same are obtained from the fees collected.

11. Chikmagalur Amildar's report No. 1268, dated 13th March 1896, regarding the well at Kalasapur. It is stated that though the well is sunk to the depth of 52 feet, of which 42 feet of rocks have been blasted, there appears to be no likelihood of getting water, and to continue the work would require a heavy cost. The Amildar suggests that the present well work be abandoned and the sum remaining unspent be utilised for repairing the sluice of Naikankere (close by the village) which would supply water all the year round.

As the present site for the well seems hopeless, it was resolved that the Executive Engineer be requested to report upon the capabilities and the probable cost of repairing the tank referred to by the Amildar and pending which report the well work be stopped.

12. Proceedings No. 11709-17—L. F. 379-92, dated 16th April 1896, requesting the submission of definite proposals with regard to the establishment for supervising works under District and Municipal Funds.

The Board is of opinion that it is not desirable to entrust the supervision of works under both the Funds to a single hand as much inconvenience would be caused thereby, but that as a sum of about Rs. 10,000 is spent annually from District and Local Funds General, 10% of this sum be made available for the salary of an experienced Work Inspector.

13. Proceedings No. 8274-83—L. F. 55-93, dated 21st January 1896, sanctioning the appointment of a relieving midwife for all the districts, except Mysore and Shimoga.

Resolved that a relieving midwife be entertained when necessary.

1. Read Government Order No. 7169-97—L. F. 71-94 of the 21st December 1895, observing that a separate provision for lighting musafirkhanas would be a waste of money and directing the purchase of a few cheap lamps to be kept in the possession of the care-taker and lent to travellers halting during nights in each musafirkhana.

Recorded with a resolution that two brass lamps with wooden stands and two hand lamps of brass at a cost not exceeding six rupees to be provided for each musafirkhana. Mr. Hassan Krishnappa, (deceased).

1. The annexed statement showing receipts and expenditure under District Funds from October 1895 to the end of January 1896 was read to the Board.

Resolution.—Passed and recorded.

2. Read Executive Engineer's docket No. 318, dated the 1st instant, forwarding an application for a re-appropriation of Budget grant for 1895-96.

Resolution.—The Board observing the necessity for the re-appropriation proposed by the Executive Engineer resolved that Government sanction be obtained thereto.

3. Supplemental Budget for 1895-96 was read and explained as follows :—

The increases proposed are under the following heads :—

			Proposed Increase.
(1) A.	Public works to be executed by the Public Works Department ..	..	4,500
	Original works.—Saklespur-Gonibid road *via* Arehalli .. 3,500		
	Reserve 1,000		
(2) B.	Public works to be executed by the Revenue Department, Original works ..		1,880
(3) C.	Civil charges	..	400
			6,780

(1) Only Rs. 3,500 is provided for the Saklespur-Gonibid road against Rs. 5,000 proposed to be granted by the Board in Resolution 10, dated 11th January 1896, as the remaining Rs. 1,500 has been proposed by the Executive Engineer to be re-appropriated from the allotments already sanctioned. (*Vide*, re-appropriation statement read above).

The increase, proposed under the head "Reserve for minor works, original," is also necessary as it is required to meet the cost of special repairs to the Anemahal-Mudgere road and the opening of the Hanbal-Devarunda road. (*Vide* Resolution XXII *infra*).

(2) As the full amount of estimate for constructing a cart-stand at Arsikere, sanctioned by Government in Proceedings No. 3395-6—L. F. 18-95. dated 9th September 1895, is required for expenditure during the current year, an additional provision of Rs. 1,880 is made under the head "B. Public Works to be executed by Revenue Officers, I. Original Works."

(3) The sum of Rs. 400 provided under the head "C. Civil Charges" is to meet the cost of appliances to be supplied to the midwives recently transferred to this District and to adjust the cost incurred by the Public Works Department in repairing certain dispensaries.

Resolution.—Passed.

4. Read Chief Engineer's letter No. 688, dated 19th February 1895, observing that it is not clear from the Board's Proceedings (Resolution VII), dated 19th November 1894, whether it is proposed to make the whole road between Mallipatna and Changadihalli *viâ* Sanivarasante from Hassan Local Funds &c.,

Resolution.—The Board wished in their Resolution quoted above that the Chief Engineer should urge on the Coorg Chief Commissioner a re-consideration of the original proposal that Coorg should undertake the construction of the portion of the road within that Province.

Resolved that considering that Addahalla bridge has been sanctioned and that the Bisle Ghat road is shorter to the coast than the Kempholé Ghat road, the authorities in Coorg may be urged again to give their best consideration to the great utility of the link from Mallipatna to Changadihalli, the Mysore portion being done by this administration from Local Funds.

5. Read Executive Engineer's Docket No. 195, dated 2nd March 1896, bringing to notice the desirability of raising the mileage allotment of the Hassan-Tiptur road to Rs. 150.

Resolution.—After discussion, resolved that the mileage allotment for the first ten miles be increased to Rs. 150 per mile and for the remaining 14 miles to Rs. 100, any section to be metalled being specially estimated for.

6. Read Government Proceedings No. 10503—L. F. 101-95, dated 12th March 1896, in the matter of opening a road from Hanbal to Byrapur.

Resolution.—Resolved that the opening of the road being necessary compensation be paid for the lands required for this road from the Local Funds, the same being contributed by Mr. Brooke Mockett and others interested.

7. *Establishing a Dispensary at Hanbal, Manjarabad Taluk.*

Read Resolution 13 of the Proceedings of the Meeting of the Board, dated 19th August 1895.

Resolution.—The Board fully recognizing the necessity for establishing a dispensary here, resolved that this dispensary, which will afford medical aid to 27 villages now too far from Saklespur, be opened from 1st July 1896, and that provision be made accordingly.

8. Constructing a musafirkhana at Hanbal, Manjarabad Taluk.

The President explained to the Board that Hanbal is an important staging place, being situated on the side of the Anemahal-Mudgere road, and that much inconvenience is felt by travellers for want of accommodation.

Resolution.—Resolved that the construction of a musafirkhana at Chamarajendrapur for which provision has been made in the Budget for 1896-97 be deferred till another year, and that a musafirkhana constructed here instead.

9. The Board resolve that the sinking of a well at Hanbal is also necessary and that an estimate be sanctioned for the same.

10. The President informed the Board that during his inspection he found Yeslur in the Manjarabad Taluk, a village of importance reqiured special conservancy arrangement and that the appointment of a sweeper was necessary.

Resolution.—Resolved that a sweeper on Rs. 5 per month be employed, the cost being met from the provision in the Budget under "Conservancy and sanitation of rural parts."

11. Read para 4 of the Proceedings of the Board, dated 11th January 1896, resolving that the District Fund Board will bear $\frac{1}{3}$rd cost of additions to the dispensary at Arsikere, the other $\frac{2}{3}$rds being borne by the Municipal and Provincial Funds as usual.

The President explained to the Board that the financial circumstances of the Municipality are very much straitened and that its income is not even sufficient to meet its most pressing demands and that the District Fund Board will therefore have to bear the Municipal share of contribution as well.

Resolution.—The Board concurring with the President resolved that the Municipality be exempted from this charge as in the case of the other charges of the dispensary, and that Government be addressed accordingly in the matter.

12. The Amildar of Arkalgood informed the Board that the Hassan-Periyapatna-Cannanore road on the Arkalgud-Dodkere tank bund is not broad enough, and that it is therefore necessary to make some arrangement to prevent danger to traffic passing over it.

Resolution.—The Executive Engineer be asked to examine the question and advice the Board as to the best and most economical way of protecting the sides of the tank.

13. Read Government Proceedings No. 10693-703—G. 319-92, dated 17th March last, asking the Deputy Commissioners of Districts to report whether the charges incidental on the out-break of cholera may be debited partly to District Funds and partly to medical savings.

Resolution.—The Senior Surgeon's proposal may be accepted and the charges debited partly to District Funds and partly to medical savings.

14. Read Government Proceedings No. 10647-55—Mis. 1495, dated 16th March 1896, requesting to submit any suggestions in the matter of sanitary arrangements to be made in places where periodical jatras or fairs last for more than three days.

Resolution.—Resolved that the matter be placed before the Board at its next meeting with full particulars which have been called for from the Amildars.

15. Read letter from Mr. J. S. Middleton, dated 7th April 1896, forwarding a bill for Rs. 419-8-0, for repairing the Marnahalli-Kadamane road, and requesting that Rs. 300, previously sanctioned by the Board for repairing the road, be given him. He further states that an additional sum be given him to meet the cost of maintaining the road during the current year.

Read also Board's Resolution III, dated 28th April 1894, on the same subject.

Resolution.—Resolved that Rs. 300 previously granted by the Board be paid to Mr. Middleton. As regards maintaining the road in future the Executive Engineer will kindly have the question examined and advise the Board as to the mileage, &c.

16. Read petition from Moktesar Patel Mallegauda of Igur and others bringing to notice the state of disrepair of the cart-track from Yeslur to Hethur, and praying that the road be maintained at Government cost.

The President informed the Board that during his inspection he found the road to be a very useful one.

Resolution.—Resolved that this road be recognized as a District Fund road, that Rs. 20 per mile be given annually for its repairs to Igur Mallegauda, and that mutchalika be taken from him to keep the road in a trafficable order.

17. Read Arsikere Amildar's No. 279, dated 3rd instant, reporting on the necessity of constructing out-houses to the musafirkhana at Banawar, and submitting a plan and estimate for Rs. 385 for the same.

Resolution.—The Board considering the buildings to be very incommodious resolved that the plan and estimate be passed, and funds provided by re-appropriation from the sanctioned allotments.

18. Read Arsikere Amildar's Arzi No. 283, dated 29th ultimo, stating that one Nanjegauda of Doddenahalli has excavated a well (pond) at a cost of Rs. 251 on the side of the Arsikere-Huliyar road, and has collected materials amounting to Rs. 175 for further work to be done to it. The well requires stone-revetting and further deepening at an additional cost of Rs. 561 which Nanjegauda is unable to bear. The Amildar, therefore, states that the remaining work may be done out of District Funds as Nanjegauda has consented to make over the well to Government with materials at site and has given a contribution of Rs. 50 in cash. The well is not only useful to the inhabitants of Doddenahalli but also to the travelling public. Deducting the amount of contribution paid and the value of work done up to date by Nanjegauda the net amount to be sanctioned is Rs. 561, for which an estimate is submitted.

Resolved that this work be included in the list of works to be executed out of Local Funds General during next year.

19. Read Government Official memo No. 11379-86—L. F. 61-95, dated 8th April 1896, calling for lists of works to be executed out of Local Funds General during 1896-97, and requesting to state what special grant is needed from Local Funds General during 1896-97.

The lists prepared were also read to the Board.

Resolution.—The Board in approving of the lists, resolved that, as per particulars therein contained, Government be respectfully requested to grant a sum of Rs. 18,958, or such amount as could be spared from Local Funds General.

20. Read Senior Surgeon's docket No. 2382, dated 6th April 1896, requesting to be furnished with certain additional information in regard to the employment of an Hospital Assistant for visiting Banawar and Harnahalli.

Resolution.—The population of Banawar and Harnahalli are 2,017 and 2,224, respectively. As Harnahalli is nearer to Arsikere than Banawar the Hospital Assistant may have Banawar as his head-quarter. Two separate supplies of medicines and appliances are not therefore necessary. The cost of one set of furniture, &c., for Banawar will be paid by the Board. A portion of the old cutcherry may be given for dispensary purposes.

21. Read Executive Engineer's docket No. 345, dated 14th April 1896, forwarding an estimate for Rs. 450 for tracing and opening out a road from Hanbal to Devarunda and explaining the necessity for the same.

Resolution.—The Board approved the estimate and resolved that a sum of Rs. 500 be given for the current year's expenditure on the road.

22. Read letter, dated 14th April 1896, from Mr. Fletcher Norton of Kalale Estate bringing to notice the desirability of opening a road from Eachelbede to Chengadihalli and offering to pay a contribution of Rs. 700 towards the cost of the work.

Resolution.—Resolved that information as to the length of the road to be opened and the probable cost of the work be ascertained from the taluk and the matter placed before the Board at its next meeting.

23. Read Alur Deputy Amildar's Arzi No. 241, dated 17th March 1896, submitting an estimate for Rs. 495 for improving the drinking water well at Palya.

Resolution.—Resolved that the estimate be sanctioned.

The Comptroller observes that notwithstanding Circular instructions on the subject, Treasury Officers do not appear to scrutinize as they should the entries made in the Deposit Register received from Taluks, but simply compile and pass them on to this office. The provisions of the Civil Account Code, 5th edition, Chapter XV, should be strictly observed, and only such items as may properly be held in deposit should be so held. Items that can be transferred to the proper heads of account should not be permitted to be held in deposit.

Treasury Officers are requested to see that the Codal rules and Circulars on the subject of Deposit Accounts are strictly attended to in future.

ANNUAL EXAMINATION OF REVENUE AND JUDICIAL DEPOSIT ACCOUNTS AND DETAILED STATEMENTS NOS. 4 AND 5, LOCAL REMITTANCES.

To--The Deputy Commissioners of Districts, Treasury Department, and the Officer in charge of the State Huzur Treasury, Bangalore, Circular Letter No. 1850, *dated 6th June* 1896.

With reference to standing orders, the Comptroller has the honor to request that the Deputy Commissioners will be good enough to scrutinize their revenue and judicial deposit accounts and the detailed statements of local remittances under entries Nos. 4 and 5 and take *immediate measures* for clearing them off in the accounts for June current.

(1) Deposit items not exceeding one rupee unclaimed for one whole account year, (2) balances not exceeding one rupee partly re-paid during the year, (3) deposits of whatever amount unclaimed for more than three complete account years ending 30th June 1896, should be credited to Government.

The sale proceeds of stray cattle kept in deposit for three months and unclaimed within that time should be transferred to credit of the "Municipal" or "District Funds" to which they belong.

Fines and all other items improperly credited to deposits or local remittances should likewise be transferred to credit of the heads to which they belong.

The District Treasury Officers aided by their Head Accountants should personally scrutinize the entries under the head Local Remittances Nos. 4 and 5, which it is observed, contain many items belonging to revenue and other heads. They should be rectified by transfers in the District Treasury accounts and the Amildars should be instructed to correct their accounts accordingly.

A detailed statement of each class of deposit items lapsing whether from age or pettiness at the end of June 1896 should be prepared and appended to the Treasury accounts for June 1896 in which the lapses are credited.

PAYMENT OF ARREAR SALARY BILLS.

To—The Deputy Commissioners, Treasury Department, Circular No. 1851, *dated 11th June* 1896.

It having been observed that instances are not infrequent in which arrear bills which have remained undrawn for more than six months have been discharged by District and Taluk Treasuries in contravension of Codal rules, the Comptroller has the honor to draw the attention of Deputy Commissioners, Treasury Department, to Article 5 of the Civil Account Code, Volume I, 5th Edition, and the recent addendum thereto and to state that no bills for salaries which have remained undrawn for six months should be cashed by the Treasuries, District or Taluk, without a reference being made to the Comptroller for orders.

Similarly under the addendum to the Article referred to, salaries allowed to remain in abeyance for a period exceeding two years require the sanction of the Government before they can be cashed.

Special attention is requested to the above instructions; any deviation therefrom will render the Disbursing Treasury Officer personally responsible.

To—The Deputy Commissioners of Districts, Treasury Department, and Officer in charge of State Huzur Treasury, No. 1852, *dated 11th June* 1896.

Instances having occurred when remittances of cash and currency notes are made from one Treasury to another during the latter part of a month resulting in such remittances being in transit on the 1st of the month following, the Comptroller has the honor to draw the attention of Deputy Commissioners, Treasury Department, to clause 1, Article 642, Chapter 21 of the Civil Account Code, Vol. I, 5th Edition, which requires that remittances from one Treasury to another should be made so as to reach its destination before the close of the month in which the remittances are made. Strict observance of this rule is enjoined.

STATISTICS.

STATISTICS OF COFFEE CULTIVATION.

I. Area and Production.

At the end of 1894 there were 289,080 acres of land under coffee in India, all of it, with the exception of 10,746 acres in Burma, being in Southern India. The cultivation of coffee is in fact restricted for the most part to a limited zone in Mysore, Coorg, and the Madras Districts of Malabar and the Nilgiris. In Mysore there are 136,052 acres, in Coorg 71,181 acres, and in the Nilgiris and Malabar 45,652. If to these are added 6,587 acres in Travancore and Cochin, we find about 90 per cent of the coffee-bearing area of India concentrated in the hilly region above the South-western coast where the rainfall is heavy and the climate generally approximates to that of the coffee-bearing area of Ceylon.

In the Madras Presidency coffee is not grown to any extent except in the two districts already mentioned, and in Salem and Madura. The only other Province in which coffee is grown is Burma, mostly in Toungoo, and the industry there is of recent origin.

In the decade under review the area in the Madras Districts has fluctuated, remaining in 1894 at but little above the level of 1885. In Coorg there has been a sudden and large increase in 1894, in Mysore there has been a steady and considerable increase, while in Travancore and Cochin there has been no advance: in Travancore, indeed, many coffee growers have abandoned that industry for the less precarious cultivation of tea.

The yield has fluctuated greatly; in 1894 it was about 35$\frac{1}{9}$ million pounds, which was but little larger than in 1885, notwithstanding the increased acreage. Taking the figure 100 to represent both area and production in 1885, the ratio of yearly increase or decrease is shown in the subjoined table :-

	Area.	*Production.*
1885	100	100
1886	97	90
1887	103	109
1888	104	76
1889	110	85
1890	114	63
1891	111	113
1892	110	97
1893	116	118
1894	122	101

In 1894 the yield varied enormously in the different localities, the returns giving 472 lb. an acre in Toungoo; 351 lb. in the Nilgiris; 157 lb. in Mysore; 104 lb. in Coorg; 76 lb. in Malabar.

A noticeable feature in the returns is the record of a yield of 1,511 lbs. an acre in Cochin in 1893 followed by a yield of 175 lbs. in 1894. The brief explanation given by the local authorities is "that it appears that the crop in the previous year was good, and that a good crop is almost invariably followed by a poor one." It is not explained, however, why in Cochin in 1893 the yield should have been as large as 1,511 lbs. to the acre, when in the adjacent region of Travancore in the same year the yield was only 170 lbs., and in Malabar only 70 lbs. These would seem to be defects in the statistics, to which the attention of the local authorities might with advantage be directed.

II. Persons employed.

According to the returns there were, in 1894, 37,903 persons permanently and 118,014 temporarily employed on the coffee estates, making a total of 155,917 persons, which is equal to about one person (1·07) to two acres, while in tea estates the average is over 2$\frac{1}{2}$ persons to two acres. The difference is explained by the much greater labor required in the repeated plucking of tea and in the subsequent processes of preparing the leaf for the market.

III. Exports and Consumption.

The following figures are the average of the five years ending 1894-95 :—

Indian Coffee	Production	lbs.	34,444,087
	Exports	"	31,595,514
	Left in India	"	2,848,573
Foreign Coffee.	Imports	"	1,820,426
	Re-exports	"	585,245
	Left in India	"	1,235,181

It appears, therefore, that nearly 92 per cent of the production is exported, and that of the coffee consumed in India, foreign coffee represents less than half the quantity of Indian coffee. The rate of consumption is little more than half that of tea, amounting to only lb. 0·014 per head of the population. It is said to be rather freely drunk by the native population in Southern India, but that is certainly not so in Northern India.

IV. Prices.

There is no trustworthy or complete record of the prices in India of Indian coffee ; and in answer to enquiries, I am informed that there are no materials for the preparation of a record of prices, and that the prices in fact depend upon and follow the fluctuations of prices in London of Ceylon plantation coffee, the price of Indian coffee being about 5s. less than the price of Ceylon coffee. This being so, the prices in London, in February of each year of the last twenty years of Ceylon coffee (plantation) are here subjoined :—

	Per cwt. s.	d.
1876	89	—0
1877	85	—3
1878	80	—0
1879	64	—0
1880	68	—6
1881	59	—0
1882	64	—0
1883	74	—0
1884	69	—0
1885	54	—6
1886	56	—0
1887	77	—0
1888	72	—0
1889	90	—0
1890	99	—0
1891	104	—6
1892	105	—0
1893	108	—0
1894	100	—0
1895	104	—0

Ten years, from 1879 to 1888, of depressed prices, combined with the havoc wrought by the borer and the leaf-disease, greatly discouraged coffee-planting in India and Ceylon, and the prospects of the industry seemed so forlorn that both in Ceylon and India much coffee land was placed under tea. In 1889, however, there was a sharp rise in prices, and the level has ranged high since that year under the operation of speculative corners, political troubles in Brazil, whence the main supplies of the world are derived, and other circumstances. The maintenance of prices at their present comparatively high level has given to the Indian coffee planter a stimulous and an encouragement which were greatly needed.

REMEDIES FOR PLANT DISEASES.

[The following are some reliable formulæ for the treatment of fungi and insect pests. They have been taken from the Report of the Agricultural Experiment Station of the University of California, and are reprinted here for the benefit of the many inquirers in this country to whom the original reports are not, perhaps, accessible. It should be very constantly borne in mind that "Paris Green" and "London Purple" contain the powerful poison arsenic, and should therefore be used with the greatest caution, especially in the case of plants any part of which is used in the preparation of food or drink. The same caution applies, though with less emphasis, to "Bordeaux mixture," which contains an irritant copper salt.]

FOR POWDERY MILDEWS use SULPHUR, dusting it on the plants.

FOR FUNGI in general use BORDEAUX MIXTURE, made as follows: For every 10 gallons take 1 pound of lime and 1 pound of bluestone. Dissolve these separately in hot water and mix when cool, adding the rest of the water. Spray on the plants. Or spray with AMMONIACAL COPPER CARBONATE SOLUTION, made as follows: Dissolve 1 ounce of copper carbonate in 6 ounces of ammonia and add 10 gallons of water.

FOR FUNGI and SCALE INSECTS use LIME, SALT AND SULPHUR MIXTURE, a *winter* wash composed of lime 8 pounds, salt 3 pounds, and sulphur 4 pounds, for each 12 gallons of water. Mix one-fourth of the water, one-fourth of the lime, and all the sulphur, and boil for one and a half hours; put the salt with the rest of the lime and slake with hot water; add to the above and boil half an hour longer; add the remainder of the water and apply as a spray.

FOR SCALE INSECTS use RESIN SOAP as follows: For 100 gallons for *summer* use take resin 18 pounds, caustic soda (98%) 3½ pounds, and fish oil 2½ pints; for *winter* use, resin 30 pounds, caustic soda 6¼ pounds, and fish oil 4½ pints. The material is put in a kettle and covered with four or five inches of water. The lid is put on and the mixture boiled two hours or more, and then the rest of the water is added, a little at a time. Spray on the plants. Or use the GAS TREATMENT: Cover the plant with an oiled tent, and for each 100 cubic feet of contents place in a bowl beneath the tent ⅔ ounce of water, ⅓ ounce of sulphuric acid (oil of vitriol), and ⅓ ounce of potassium cyanide (58%). Be careful not to inhale the poisonous gas, not to allow it to escape from the tent for half an hour. The leaves may be injured if used during the middle of the day.

FOR INSECTS in general use KEROSINE EMULSION, as follows: Make a soap solution of half a pound of soap to a gallon of water. Heat it to boiling and add two gallons of kerosine. Pump it through the spray pump, with good pressure, for five or ten minutes. For use add ten times as much water as you have of emulsion. Apply as a spray. Sour milk may be used instead of the soap solution. The emulsion is made more effective by the addition of a very small amount of arsenic to the soap solution, or of buhach to the kerosine.

FOR fruit or leaf-eating INSECTS use PARIS GREEN or LONDON PURPLE as a powder at the rate of 1 to 5 pounds to the acre, distributed by walking or riding over the field, carrying a pole, at both ends of which are hung muslin bags containing the poison. As a spray use 1 pound to 200 gallons of water. In spraying these arsenites the nozzle should be held at some distance from the plant and *no more should be applied after the leaves begin to drip.* Do not use these on crops where the poison would be injurious to health.

REMEDIES FOR PLANT DISEASES.

[The following are some reliable formulæ for the treatment of fungi and insect pests. They have been taken from the Report of the Agricultural Experiment Station of the University of California, and are reprinted here for the benefit of the many inquirers in this country to whom the original reports are not, perhaps, accessible. It should be very constantly borne in mind that "Paris Green" and "London Purple" contain the powerful poison arsenic, and should therefore be used with the greatest caution, especially in the case of plants any part of which is used in the preparation of food or drink. The same caution applies, though with less emphasis, to "Bordeaux mixture," which contains an irritant copper salt.]

FOR POWDERY MILDEWS use SULPHUR, dusting it on the plants.

FOR FUNGI in general use BORDEAUX MIXTURE, made as follows: For every 10 gallons take 1 pound of lime and 1 pound of bluestone. Dissolve these separately in hot water and mix when cool, adding the rest of the water. Spray on the plants. Or spray with AMMONIACAL COPPER CARBONATE SOLUTION, made as follows: Dissolve 1 ounce of copper carbonate in 6 ounces of ammonia and add 10 gallons of water.

FOR FUNGI and SCALE INSECTS use LIME, SALT AND SULPHUR MIXTURE, a *winter* wash composed of lime 8 pounds, salt 3 pounds, and sulphur 4 pounds, for each 12 gallons of water. Mix one-fourth of the water, one-fourth of the lime, and all the sulphur, and boil for one and a half hours; put the salt with the rest of the lime and slake with hot water; add to the above and boil half an hour longer; add the remainder of the water and apply as a spray.

FOR SCALE INSECTS use RESIN SOAP as follows: For 100 gallons for *summer* use take resin 18 pounds, caustic soda (98%) 3½ pounds, and fish oil 2½ pints; for *winter* use, resin 30 pounds, caustic soda 6½ pounds, and fish oil 4½ pints. The material is put in a kettle and covered with four or five inches of water. The lid is put on and the mixture boiled two hours or more, and then the rest of the water is added, a little at a time. Spray on the plants. Or use the GAS TREATMENT: Cover the plant with an oiled tent, and for each 100 cubic feet of contents place in a bowl beneath the tent ⅔ ounce of water, ⅓ ounce of sulphuric acid (oil of vitriol), and ⅓ ounce of potassium cyanide (58%). Be careful not to inhale the poisonous gas, not to allow it to escape from the tent for half an hour. The leaves may be injured if used during the middle of the day.

FOR INSECTS in general use KEROSINE EMULSION, as follows: Make a soap solution of half a pound of soap to a gallon of water. Heat it to boiling and add two gallons of kerosine. Pump it through the spray pump, with good pressure, for five or ten minutes. For use add ten times as much water as you have of emulsion. Apply as a spray. Sour milk may be used instead of the soap solution. The emulsion is made more effective by the addition of a very small amount of arsenic to the soap solution, or of buhach to the kerosine.

FOR fruit or leaf-eating INSECTS use PARIS GREEN or LONDON PURPLE as a powder at the rate of 1 to 5 pounds to the acre, distributed by walking or riding over the field, carrying a pole, at both ends of which are hung muslin bags containing the poison. As a spray use 1 pound to 200 gallons of water. In spraying these arsenites the nozzle should be held at some distance from the plant and *no more should be applied after the leaves begin to drip.* Do not use these on crops where the poison would be injurious to health.
